SUMMARY OF the 2025 First-Half Results

- ▶ At the end of H1 2025, **Transilvania Investments** recorded a RON 108.52 million **net profit**, up 46.83% compared to the same period in 2024.
- ▶ The **profit before tax** achieved at the end of the first half of 2025, worth RON 108.24 million, is RON 49.77 million higher than the profit provided for in the Revenue and Expenditure Budget for H1 2025 and 29.79% higher than the profit before tax provided for the full year 2025.
- ▶ The **net operating income** at June 30, 2025 amounts to RON 123.37 million, up by 32.35% compared to those recorded in the first half of 2024 and higher by RON 43.52 million and 54.50% respectively than the value provided for in the Revenue and Expenditure Budget for H1 2025.
- ▶ The **operating expenses** at the reporting date, worth RON 15.12 million, are 2.54% higher than those recorded in the first half of 2024 and RON 6.25 million and 29.25% respectively lower than those provided for in the Revenue and Expenditure Budget for H1 2025.
- ▶ **Transilvania Investments' total assets** at the reporting date amount to RON 2,121.22 million, up by 59.34 million and 2.88% respectively, compared to the same period of the previous year and up by 10.08% compared to December 31, 2024.
- ▶ The **portfolio of financial instruments** held by **Transilvania Investments** at the end of the reporting period amounts to RON 1,990.74 million, up by 1.87% compared to the portfolio value as of June 30, 2024 and up by 6.06% compared to the value recorded at the end of the year 2024.
- ▶ The **total liabilities** at the end of the first half of 2025 amount to RON 138.96 million, being lower by RON 2.11 million, respectively by 1.50% compared to those recorded in the same period of the previous year.
- ▶ The **net asset value** reported for June 30, 2025 is RON 1,982.26 million (RON 0.9374/share), up 3.20% compared to the net asset value as of June 30, 2024 (RON 1,920.81 million, RON 0.8940/share), respectively up 8.28% compared to the value recorded as of December 31, 2024.
- ▶ The **closing price of TRANSI share** at the Bucharest Stock Exchange as of June 30, 2025 is RON 0.3640/share, down by 2.15% compared to the price recorded on June 30, 2024 and down by 3.19% compared to the closing price on December 31, 2024.
- ▶ The **trading discount of TRANSI shares** on June 30, 2025 is 61%, higher by 3 pp compared to the discount recorded at the end of H1 2024 and higher by 5 pp compared to the value recorded on December 31, 2024.

CHAPTER 1

Introduction

Through the nature of its activity, **Transilvania Investments** aligns itself with both the economic and legislative context in Romania and the regional and global macroeconomic dynamics. A series of events that occurred during the first half of 2025 had a direct or indirect impact on the Company's results and performance.

General macroeconomic context

In the first half of 2025, Romania's economy continued to operate in an environment marked by both domestic and external uncertainties, maintaining a fragile balance between fiscal pressures, political volatility, and moderate external developments. Globally, economic trends were divergent, yet a clearer outlook for monetary easing in developed economies began to emerge, contributing to a reduction in risk aversion across emerging financial markets. At the same time, the persistence of heightened geopolitical risks—particularly in the Black Sea region—continued to indirectly influence investor sentiment and regional energy stability.

In Romania, the semi-annual data indicate modest economic growth, driven mainly by public investments and household consumption in specific segments, despite a noticeable slowdown in external demand. Structural imbalances persist: inflation remained above the EU average, reaching 5.8% in June 2025, while the budget deficit exceeded 3.4% of GDP in the first half of the year. Public debt rose above 54% of GDP, continuing its upward trend and amplifying risks related to fiscal sustainability and the government's financing costs.

On the political front, the first half of the year was marked by instability and uncertainty regarding the direction of structural reforms. Following the formation of the governing coalition, the legislative process advanced slowly, amid social tensions and public debates surrounding the fiscal adjustments required to meet European commitments.

The National Bank of Romania maintained its key interest rate at 6.50% throughout the semester, continuing a cautious monetary policy in response to inflationary pressures and unresolved fiscal imbalances. Despite a downward trend in inflation, its level remains one of the highest in the EU, limiting the central bank's flexibility in a global context increasingly oriented toward monetary easing.

The government bond market remained volatile, reflecting uncertainties about fiscal consolidation and the limited risk appetite of institutional investors. Yields stayed elevated in real terms, contributing to the growing budgetary burden associated with public debt servicing.

In this context, H1 2025 was characterized by heightened exposure of the economic environment to structural and credibility risks, with implications for investment decisions and growth prospects. Companies and investors continued to operate in a climate of caution, focusing on adaptability, cost control, and liquidity preservation, while awaiting greater clarity regarding medium-term economic and fiscal policy directions.

Economic growth outlook, key risks and financial system vulnerabilities

In the first half of 2025, Romania's economy recorded a positive yet modest performance, primarily supported by public investments and domestic consumption. However, growth prospects for the remainder of the year remain uncertain, strongly conditioned by the pace of fiscal consolidation, the effective absorption of EU funds, and external developments, particularly in the euro area.

A key factor for sustaining economic activity in the upcoming period is the efficient use of European funds, available through both the National Recovery and Resilience Plan (NRRP) and the 2021–2027 Multiannual Financial Framework. Projects targeting infrastructure, digitalization, green energy, and administrative efficiency could have a significant multiplier effect—provided that implementation capacity and decision-making stability are ensured. Risks related to bureaucratic delays, legislative blockages, and limited administrative execution capacity persist.

Private consumption remains the main engine of growth, supported by increases in disposable income (driven by wage hikes and pension adjustments). The gradual decline in inflation has slightly improved purchasing power. However, mounting fiscal pressures—including discussions on VAT

increases, the removal of certain tax exemptions, and changes to the tax regime—may constrain domestic demand in the second half of the year.

Monetary policy remained unchanged in H1 2025, with the National Bank of Romania keeping the key interest rate at 6.50%. Despite the disinflationary trend, the central bank maintains a cautious stance given persistent fiscal imbalances and inflation still above the European average. Potential interest rate cuts may be considered later in the year, conditional on credible and sustainable fiscal correction.

Government bond yields remained elevated and volatile, reflecting investor sensitivity to domestic fiscal risks, political uncertainty, and the global interest rate outlook. This tense environment is mirrored in the state's financing costs and in local issuers' market access.

On the external side, exports benefited from a modest stabilization in European demand, while foreign direct investment inflows remained at a reasonable level, with growing interest in renewable energy, technology, and industrial production. These investments have the potential to support medium-term growth, provided they are accompanied by reform measures and legislative predictability.

However, macroeconomic and fiscal risks remain elevated. The budget deficit accumulated in H1 2025 exceeded 3.4% of GDP, while public debt surpassed 54% of GDP and is nearing the critical 60% threshold—potentially triggering more aggressive fiscal correction measures or additional pressure from European partners. Without credible budget consolidation, there is a risk of sovereign rating downgrades and increased financing costs.

Political instability and inconsistent decision-making remain key vulnerabilities. The postponement of agreed reforms with the European Commission, the absence of a clear fiscal adjustment calendar, and populist political rhetoric may undermine investor confidence and EU fund absorption prospects. The risk of fiscal slippage remains present and may intensify in election years or in the absence of political consensus for structural reforms.

In conclusion, Romania's economy continues to operate in a fragile balance—between the potential driven by EU funds and domestic demand on one side, and the vulnerabilities caused by fiscal imbalances, political uncertainty, and a volatile international environment on the other. A sustainable growth path will depend decisively on the authorities' ability to implement coherent reforms, maintain fiscal discipline, and foster a stable and predictable economic environment.

Overview of the Romanian capital market

In the first half of 2025, the Romanian capital market continued its positive momentum, supported by strong financial results reported for the 2024 fiscal year, as well as the stable dividend policies of listed companies. The BET-TR index reflected this trend, benefiting from a generally favorable environment, fueled in part by expectations of potential monetary policy easing in the second half of the year.

The average dividend yield remained at an attractive level, comparable to previous periods, which helped sustain investor appetite for defensive stocks and income-oriented strategies. In this context, interest from both institutional and retail investors remained high, despite external volatility and domestic fiscal risks.

Market liquidity remained relatively stable in terms of average daily volume; however, the total value traded in H1 2025 across all financial instruments listed on the BVB Regulated Market registered a slight decline compared to the same period of the previous year. This evolution reflects a cautious investment climate, marked by increased selectivity and portfolio repositioning based on perceived risks.

Pillar II pension funds maintained their active role in supporting liquidity, continuing to focus on large-cap issuers, particularly in the banking, energy, and utilities sectors. The consistent presence of these institutional investors contributes to the stability and maturation of the local capital market.

At the sectoral level, the best performances were recorded in the energy, financial services, and utilities segments, supported by solid profitability prospects and consistent dividend distribution policies. In contrast, the technology and industrial sectors showed mixed performance, influenced by external demand volatility and higher operating costs.

The market's reaction to the financial results for 2024 was largely positive, reflecting a gradual return of investor confidence in the medium-term outlook, especially for issuers with strong financial positions and coherent investment plans.

Despite these favorable fundamentals, both external and internal risks remain relevant. International market volatility, uncertainty regarding the future trajectory of interest rates, and potential local fiscal adjustments may continue to influence risk appetite and investor sentiment in the second half of the year.

Overall, the Romanian capital market demonstrated resilience and attractiveness in H1 2025, despite a context marked by economic and political challenges. The developments during this period are in line with the positive trends observed in other emerging markets, highlighting the role of the Bucharest Stock Exchange as a relevant financing and investment platform in the region. In H1 2025, the performance of listed shares on the regulated market compared to the same period of the previous year revealed the following key aspects:

- Compared to the same period of the previous year, the total value of transactions on the regulated segment of the Bucharest Stock Exchange (BVB) recorded a lower aggregate level.
- At the end of the first half of 2025, the market capitalization of the regulated segment was 13.5% higher compared to the same period of the previous year (YoY change).

Evolution of B.S.E. main segment (2024–2025)

Source: Processing according to Bucharest Stock Exchange data

Since the beginning of 2025, the performance of the main index of the regulated market, BET Total Return (calculated in local currency and including dividends), has been positive, recording a 15.25% increase. Notably, the gap between the performance of the local index and the MSCI Frontier Markets index has narrowed, resulting in a relative underperformance of the Romanian market.

CHAPTER 2

Performance of TRANSI shares during the first six months of 2025

Throughout the first half of 2025, **TRANSI** shares recorded a performance marked by the following trading highlights:

minimum closing price	RON 0.3200/share
average trading price	RON 0.3686/share
maximum closing price	RON 0.4100/share
traded volume	40.56 million shares
number of trading sessions	120 sessions
average daily traded volume	0.338 million shares/session

Source: Bloomberg

Compared to the price at the beginning of the year, **TRANSI** shares recorded a downward trend, with the closing price on the last trading day of the current semester being 2.4% lower than the closing price registered at the beginning of the year.

Evolution of TRANSI shares' trading discount during the last 12 months

Source: Transilvania Investments Alliance

During the last 12 months, the net asset value per share (NAVPS) increased from RON 0.8940/share in June 2024 to RON 0.9374/share at the end of June 2025. This increase was accompanied by a correction in the share price, which decreased from RON 0.3720/share at the end of June 2024 to RON 0.3640/share at the end of June 2025.

The trading discount of **TRANSI** shares evolved similarly to the net asset value per share, widening from 58% at the end of June 2024 to 61% at the end of the reporting period.

Analysis of TRANSI shares' trading discount at 30.06.2025

Source: Transilvania Investments Alliance

By reference to the Net Asset Value per share reported for 30.06.2025, the **TRANSI** share are traded at a significant discount of 61%, thus reflecting a market valuation significantly below the book value level. Additionally, when compared to the aggregated value of the top 10 holdings in the portfolio, along with cash and cash equivalents, the share price indicates a discount of approximately 53%.

CHAPTER 3

Analysis of the Company's activity

General framework. Strategy and objectives

Transilvania Investments is an Alternative Investment Fund Manager (A.I.F.M.), authorized by the F.S.A. (Authorization no. 40/15.02.2018), which operates according to the provisions of Law no. 74/2015 on alternative investment fund managers. At the same time, the Company is authorized as a closed-end Retail Investor Alternative Investment Fund (R.I.A.I.F.), diversified, established as an investment company, self-managed, according to the provisions of Law no. 243/2019 on the regulation of alternative investment funds (F.S.A. Authorization no. 150/09.07.2021).

Transilvania Investments is a Romanian legal entity organised as a joint stock company. The Company is listed on the Bucharest Stock Exchange, on the Main segment, within the Premium category, under **TRANSI** symbol, the trading of the shares issued by the Company being subject to the rules applicable to regulated market and closed-end alternative investment funds.

The Company manages an investment portfolio which has a predominant exposure on the Romanian capital market, mainly on shares of listed companies from *Banks, Travel and leisure, Real Estate, Financial services* and *Energy* sectors. The managed portfolio may include, without limitation thereof, any of the following main classes of financial instruments/assets: shares, fixed-income instruments, fund units/ETFs, equity holdings in investment funds/collective investment undertakings, equity interests, alternative investment instruments (including derivatives).

The structure of the portfolio managed by the Company complies with the investment limitations undertaken through the risk profile and the status of Retail Investor Alternative Investment Fund, and it therefore remains focused on shares listed on the Romanian capital market.

Strategy and Objectives

In accordance with the **Transilvania Investments'** 2024–2028 Strategy, approved through the Resolution of the Ordinary General Meeting of Shareholders of 22.04.2024, **the investment strategy** of the Company seeks the **maximization of the aggregate returns** obtained by its current and potential shareholders, through the investments carried out by the Company, and the **increase in the net asset value per share**.

The investment policy of the Company seeks the increase of the portfolio quality through the accelerated restructuring thereof, structural balancing of the portfolio, ensuring an optimal level of the portfolio aggregate liquidity and promotion of efficient and attractive shareholder remuneration instruments, and the proper management of the financial resources needed to implement such instruments.

Moreover, the 2024–2028 Strategy established the **new business lines**, namely **travel and leisure, real estate, active trading and private equity**, the main lines of action being the following:

- ▶ **Travel and leisure** – changing/consolidating the management and business models for the sub-portfolio of companies operating in the tourism sector. In order to increase the performance of companies from this sector, agreements for specialized operating services and/or operation under international brands can also be considered.
- ▶ **Real estate** – efficient and centralized operating of the real-estate portfolios, including the assets held by companies operating in the industry sector where the risk-adjusted profitability of the industrial activity is lower than the estimated efficiency of operation as a real-estate vehicle.
- ▶ **Active trading** – includes the strategy afferent to issuers actively traded on financial markets, with high liquidity, regardless of the trading environment (local or international) with the view of maintaining an adequate liquidity level profile of the managed portfolio and targets both short and longer investment horizons.
- ▶ **Private equity** – developing and efficiently capitalizing on the potential offered by the niche of private equity investments, both in new sectors and by a private equity approach for the assets in the existing portfolio. The private equity investments and participation in entrepreneurial projects create the premises for the increase in the profitability of the assets managed and have the purpose of mitigating the negative performances recorded on the capital market.

In addition, the 2024–2028 Strategy set the **main objectives** for the said period, such as an annual increase in the net asset value per share (NAVPS) by at least 6% (increase calculated before any distribution of dividends and/or other shareholder remuneration forms) and annual reduction of the trading discount by at least 7%, shareholder remuneration through a mix of instruments (dividends and reduction of the trading discount), restructuring the historical portfolio, increasing the weight of dividends generated by subsidiaries, maintaining the portfolio medium risk profile and the investment entity status etc.

The **evolution of the two multiannual performance indicators (K.P.I.)** during **01.01.2025 – 30.06.2025** was the following:

- a. Annual increase in unitary net asset value (NAVPS) – 8.72% increase
- b. Annual reduction of the trading discount – 8.47% increase.

Regarding the degree of achievement of the Revenue and Expenditure Budget for 2025, a quantitative criterion provided for in the **Company's Remuneration Policy**, we mention that the **profit before tax** as at 30.06.2025, amounting to RON 108.24 million, is RON 49.77 million higher than the profit provided for in the Revenue and Expenditure Budget for H1 2025 and higher by 29.8% compared to the profit forecast for the entire year 2025.

At the end of the first half of 2025, the net asset value per share (NAVPS) increased by 8.72%, exceeding the annual target level of 6%. This evolution reflects the financial results above expectations obtained in the first half of the year, with a half-year profit higher than that budgeted for the entire year. This performance was supported by the favorable evolution of some relevant holdings in the portfolio, the cashed dividends and an active management of positions.

However, this solid increase in the NAVPS did not translate into a similar evolution in the market price of the **TRANSI** share, which led to a temporary increase in the trading discount, from 56% to 61%. The difference can be attributed to cyclical market factors, such as the macroeconomic context, the evolution of the perception of the valuation of listed and unlisted assets and investors' expectations regarding the timing of potential gains.

Transilvania Investments remains firmly committed to creating sustainable shareholder value and will continue to promote a transparent and results-oriented approach, with the objective of reducing the trading discount by effectively capitalizing on the portfolio, actively communicating with the market and strengthening investor confidence.

Investment entity

Transilvania Investments applies the IFRS standards as the accounting base, in compliance with the requirements of the F.S.A. Rule no. 39/2015 *for the approval of the accounting regulations compliant with International Financial Reporting Standards, applicable to the entities authorized, regulated and supervised by the Financial Supervisory Authority from the financial instruments and investments sector*.

IFRS 10.4 sets out certain exceptions with respect to the preparation of consolidated financial statements, among which the exception applicable to parent companies which are classified as "investment entities". As a result of the analyses carried out, **Transilvania Investments'** management found that the Company met the requirements of the definition of an "investment entity" in compliance with IFRS 10, respectively the Company:

- i. obtains funds from one or more investors for the purpose of providing those investors with investment management services;
- ii. commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both, and
- iii. measures and evaluates the performance of substantially all of its investments on a fair value basis.

Under these circumstances, **Transilvania Investments** prepares a single set of financial statements, respectively separate financial statements in accordance with IFRS.

The Company's financial investments are measured at fair value. In the light of IFRS 9, **Transilvania Investments** classified its investments in subsidiaries and associated entities, the bonds and the fund units as financial instruments measured at fair value through profit or loss. The Company's investments in other equity instruments (other than subsidiaries and associated entities) are classified as financial assets at fair value through other comprehensive income and/or as financial assets at fair value through profit or loss.

Transilvania Investments directly provides investment management services for its investors, having as its main and exclusive business scope activities specific to closed-end investment companies. **Transilvania Investments** does not provide investment related consultancy and administrative services, directly or indirectly through a subsidiary, to third parties and/or its investors.

The Company applies an exit strategy based on the permanent monitoring of its investments, analysis of the current market developments, achievement of higher yields and fulfilment of the objectives set under the annual revenue and expenditure budgets.

Transilvania Investments presents its strategy to its current and potential investors based on specific documents approved by the General Meeting of Shareholders, namely the Company's Strategy and Investment Policy Statement.

The Company is authorized by the Financial Supervisory Authority as a Retail Investor Alternative Investment Fund (R.I.A.I.F.). The Company's operation in the capacity of a R.I.A.I.F., of closed-end type, diversified, set-up as an investment company, self-managed, is based on a series of rules regarding the risk profile, investment exposure limits, measurement of the portfolio financial assets and their presentation in the Company's net asset value, transparency and reporting requirements.

Transilvania Investments monitors the structure and performance of its investment portfolio and:

- i. publishes monthly the statement of assets and liabilities, namely reports regarding the net asset value and net asset value per share, calculated by the company and certified by the depository (Annex no. 10 to the F.S.A. Regulation no. 7/2020), together with the statement of assets for which valuation methods compliant with the international standards and fair value principle were considered (Annex prepared according to Article 38, paragraph (4) of Law no. 243/2019);
- ii. calculates monthly and publishes on a quarterly, half-yearly and yearly basis the detailed statement of investments (Annex no. 11 to the F.S.A. Regulation no. 7/2020), at the deadlines provided by the applicable legislation for the publishing of the quarterly, half-yearly and yearly reports.

Financial assets at fair value

According to IFRS 13, the fair value levels, depending on the input data used in the measurement process, are defined as follows:

- Level 1 input data are quoted prices (unadjusted) in active markets for identical assets and liabilities that the entity can access on the measurement date;

- ▶ Level 2 input data are input data, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly;
- ▶ Level 3 input data are unobservable input data for the asset or liability.

Establishing the materiality threshold of the input data used in the process of fair value measurement, in its entirety, requires the use of professional judgment, considering the specific factors, because of the complexity implied by the measurement of these investments and the presentation of the fair value changes in the financial statements. The fair value measurement of the financial instruments held by **Transilvania Investments** is carried out in compliance with the fund's policy and rules regarding the asset valuation, the internal procedure and the related methodology.

For companies listed on the main segment of the Bucharest Stock Exchange, it is considered that, as a rule, the trading activity of the shares issued by the respective companies is considered relevant for the application of the mark-to-market method. In accordance with the general concept and the fund rules, established in the context of the Company's authorizing as a R.I.A.I.F., the holdings in issuers listed on an alternative/multilateral system in Romania are assimilated to securities with a liquidity considered irrelevant for using the mark-to-market method, therefore the shares issued by the respective companies are valued based on a valuation report, in accordance with the valuation standards in force. In specific situations, which do not fall within the mentioned general coordinates, a prudential judgment of the quantitative and/or qualitative aspects regarding the market and trading of the respective securities is considered.

At 30.06.2025, **Transilvania Investments** holds in portfolio financial assets measured at fair value, classified on the three fair value levels, as follows:

- RON -	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value through other comprehensive income	1,032,274,821	-	107,412,315	1,139,687,136
Shares, equity interests	1,032,274,821	-	17,307,569	1,049,582,390
Equity holdings	-	-	90,104,746	90,104,746
Financial assets measured at fair value through profit or loss	294,583,497	102,260,963	454,262,556	851,107,016
Shares	294,583,497	-	429,592,362	724,175,859
Bonds, government securities	-	102,260,963	0	102,260,963
Fund units	-	-	24,670,194	24,670,194
Total financial assets measured at fair value	1,326,858,318	102,260,963	561,674,871	1,990,794,152

In terms of the structure of the Company's financial assets, at 30.06.2025, the shares account for 89.1% of total portfolio value. At the same date, the financial assets, classified under Level 1 in the fair value hierarchy, account for 66.6% of the total value of **Transilvania Investments** portfolio.

Key considerations on the evolution of the financial instrument portfolio during the first six months of 2025

- ▶ during the first half of 2025, the total asset value increased by 10.08% (non-annualized rate).
- ▶ the net asset value had a similar evolution, recording a 8.28% increase in the first six months of 2025.

- analysis of the financial instrument portfolio variation (fair value + generated cash + attached receivables deducted from fair value) – by financial instruments
- the sub-portfolio of shares generated at the asset value level a positive net impact totalling RON 206.8 million;
 - the sub-portfolio of equity holdings generated at the asset value level a positive net impact totalling RON 4.2 million;
 - the sub-portfolio of government securities generated at the asset value level a positive net impact totalling RON 3.6 million.

The impact is calculated considering the difference between the fair values of the financial instruments in the portfolio recorded at the reference date compared to the initial date, to which are added the results generated by the transactions carried out with these instruments, as well as the related cash flows, including dividends collected and cash flows related to the sale and acquisition operations. At the same time, related receivables, such as dividends receivable, which are deducted from the fair value of the financial instruments, are also considered.

Investment activity during January–June 2025

Transilvania Investments Alliance's investment activity is consistent with the Company's Strategy for 2024–2028, respectively it is focused on issuers actively traded on the financial markets, with high liquidity, regardless of the trading environment (local or international), with the purpose of maintaining an adequate liquidity level profile of the managed portfolio, and targets both short and longer investment horizons.

During the first half of 2025, the investments made by **Transilvania Investments** have been mainly oriented towards financial instruments with high liquidity traded on the local regulated market.

Thus, the investments made during the first six months of 2025, at the level of the FVTPL short-term portfolio, totalling RON 47 million, consisted in acquisitions of shares issued by Banca Transilvania, Turism Felix, Premier Energy, OMV Petrom, BRD etc, as well as acquisitions of government securities denominated in RON mainly with short maturities of less than one year.

At the level of the same FVTPL short-term portfolio, the Company carried out sale transactions, totalling RON 69.7 million, which were mainly focused on marking profit in the case of the issuers Banca Transilvania, OMV Petrom, Romgaz, Medlife etc. In addition, **Transilvania Investments** participated in the Tender Offer launched by Turism, Hoteluri, Restaurante Marea Neagră S.A.

At the level of the FVTOCI long-term portfolio, the Company made acquisitions amounting to RON 63.7 million, consisting mainly in shares issued by Evergent Investments S.A., thus reaching at the acquisition date a 9.2724% stake in the issuer's share capital. As a result of the registration of the reduction of the issuer's share capital, the stake held by **Transilvania Investments** increased to 9.46%.

In addition to the acquisitions on the Romanian capital market, at the level of the FVTOCI portfolio, the Company acquired stakes in the CEECAT Fund II, amounting to EUR 464 thousand, a private equity fund with a focus on small and medium-sized companies in emerging Europe, with investments in companies operating in the IT services and food retail sectors being targeted.

The sale operations carried out during the same period, at the FVTOCI portfolio level, amounted to RON 46.6 million and were mainly focused on marking profit in the case of the issuer BRD Groupe Société Générale and on the sale of the entire stakes held in Societatea Energetică Electrica, Romgaz, Fondul Proprietatea and Holde Agri Invest.

In addition to the transactions made at the FVTPL and FVTOCI portfolios level, **Transilvania Investments** redeemed its own shares under the buy-back programmes approved through

the Resolutions of the Extraordinary General Meetings of Shareholders of 22.04.2024 and 10.03.2025.

Thus, during 26.11.2024 – 13.03.2025, the Company run the second stage of the buy-back programme approved through the E.G.M.S. Resolution no. 1/22.04.2024, stage having as subject the buy-back of own shares with the purpose of being freely distributed to the Supervisory Board members, Executive Board members and the identified personnel within a Stock Option Plan program, in compliance with the Company's remuneration policy. The daily acquisition volume was maximum 25% of the average daily volume of shares traded on BSE recorded in October 2024 (148,022 shares maximum), in accordance with art. 3, para. (3) letter a) of the Delegated Regulation (EU) 2016/1052. The intermediary of the programme was BT Capital Partners. Under this stage, the Company acquired 10,000,000 own shares, representing 0.4624% of the share capital, at the average price of RON 0.3841/share, the amount paid being RON 3,840,651.26.

The completion of the 2nd stage of the buy-back programme on 13.03.2025 marked the completion of the entire buy-back programme approved through the E.G.M.S. Resolution no. 1/22.04.2024, which aimed at the redemption of a total number of 34,003,797 shares, representing 1.5724% of the share capital.

The Company started on 16.05.2025 the first stage of the buy-back programme approved through the EGMS Resolution no. 1/10.03.2025, stage having as subject the buy-back of 40,000,000 shares with the purpose of reducing the share capital by cancelling the bought-back shares. The daily volume is maximum 25% of the average daily volume of shares traded on BSE, calculated based on the average daily volume recorded in the 20 trading days preceding the date of purchase, in accordance with art. 3, para. (3) letter b) of the Delegated Regulation (EU) 2016/1052. Until 30.06.2025, the Company redeemed 1,731,871 shares, at the average price of RON 0.3610/share, totalling RON 625,278.11, the programme being 4.3% completed.

In the second half of 2025, the Bucharest Stock Exchange could have a mixed evolution, with periods of stability alternating with correction episodes, amid regional volatility and fiscal uncertainties. There is limited room for monetary policy rate reductions and any downward adjustments could occur as early as 2026, depending on the path of inflation and fiscal consolidation.

The financial results of listed companies showed a downward trend in profitability compared to 2024, and the pressure on margins could continue, especially in the context of rising costs and maintaining moderate demand in the economy. The fiscal impact of both the announced and potential measures is not yet reflected in the reported results, which may bring negative revisions in the profitability and dividend estimates for 2025.

At the same time, the adopted fiscal package was considered positive by the rating agency Fitch, which appreciated the fiscal consolidation measures, temporarily contributing to reducing the downgrade pressure of Romania to the junk category.

The government securities in the [Transilvania Investments](#)' portfolio, along with the cash reserves built up over the last quarters, allow the possibility of choosing in the future between different asset classes according to opportunities.

Portfolio management during January–June 2025

During the first half of 2025, **Transilvania Investments** continued to implement measures to achieve the objectives outlined in the 2024–2028 Strategy approved by the General Meetings of Shareholders, regarding the portfolio management, i.e.:

- ▶ monitoring and analysing the portfolio companies' activity based on the financial results reported for the financial year 2024 and the first quarter of 2025;
- ▶ substantiation of the voting options in the general meetings of shareholders held for the closure of the 2024 financial year regarding the distribution of the net profit and other items on the agenda, based on the documents provided by the portfolio companies and by reference to **Transilvania Investments'** interests;
- ▶ approval in the general meetings of shareholders of the performance criteria and objectives for 2025 for the Company's subsidiaries, depending on the specificity of their activity;
- ▶ implementation of the *"Policies for ensuring an efficient management of the company"* in the companies in which **Transilvania Investments** is the majority shareholder, which are meant to:
 - strengthen the implementation of corporate governance principles oriented towards transparency, equality of participants, proportionality, assumption of responsibility and efficiency;
 - optimize the management systems and performance indicators in line with the specificity of the field in which the issuer operates and with the amplitude of their activity;

- ensure an efficient use of the company's financial resources and the creation of value for shareholders;
 - implement specific policies and rules for avoiding and managing conflicts of interest.
- ▶ appointment in management and supervisory positions of individuals with professional expertise and qualification, based on clearly predefined criteria and in accordance with the internal selection procedure, including independent directors;
 - ▶ identification and steering of synergies existing at the level of the companies which operate in the same sector with a view to improving the operational efficiency;
 - ▶ carrying on the restructuring and increase in efficiency of the portfolio managed by **Transilvania Investments**.

Source: Transilvania Investments. Obs.: According to IFRS fair values * including fund units and equity holdings

At the end of the first half of 2025, the financial instrument portfolio value is RON 1,990,794,152, and the total assets under management amount to RON 2,121,219,780.

The changes that took place within the portfolio led to the reduction in the number of financial instruments from 71 (as at 31.12.2024) to 65 (as at 30.06.2025).

Following the change in the main object of activity of the portfolio companies Nova Tourism Consortium S.A., Transilvania Investments Alliance Equity S.A. and Transilvania Investments

Restructuring S.A., from *Business and other management consultancy activities* – NACE code 7022, to *Activities of holding companies* – NACE code 6421, based on the EGMS resolutions of these companies of 15.05.2025 and 30.05.2025 respectively, the stakes held by **Transilvania Investments** were reclassified from a sectoral point of view on 31.05.2025 and 18.06.2025 respectively, from *Industry – Industrial goods and services – Consultancy*, in *Financials – Financial Services – Investment Banking and Brokerage Services (Diversified Investment Holding companies)*, in accordance with the FTSE Russell–Industry Classification Benchmark (ICB) methodology.

In accordance with the objective of portfolio diversification and orientation towards sectors with growth potential, the measures taken during the first half of 2025 to restructure the portfolio and increase the efficiency thereof consisted in acquisition and sale of shares and acquisition of government securities, as presented in the chapter *Investment activity during January–June 2025* in this report.

In the same context, we mention that the development efforts made by the **Transilvania Investments**' subsidiaries have also resulted in the start or acceleration of some development projects, as follows:

- ▶ In the **Travel and leisure sector**, in order to implement the initiatives from the travel and leisure portfolio, a strategy was defined for this sector and a series of projects were initiated, such as:
 - **T.H.R. Marea Neagră S.A.** – the company sold the following assets: Balada Saturn Complex (EUR 6.4 million) and Capitol Complex in Eforie Sud (EUR 1.5 million).
 - **FEPER S.A.** – the transaction regarding the sale of the Orizont Hotel in Predeal was not completed, due to the fact that the buyer failed to pay the entire amount.
- ▶ In the **Industry sector**: on 20.02.2025, Sembraz S.A. signed the contract for the sale of its assets (EUR 4.5 million) and the project development contract for the release and preparation of the land (EUR 0.7 million).

Note: According to IFRS fair values reported for June 2025 (expressed in RON)

At 30.06.2025, the financial instrument portfolio value is RON 1,990,794,152 and the total assets under management amount to RON 2,121,219,780.

Transactions between related parties

Transilvania Investments' transactions with related parties have been carried out during the normal performance of the Company's activity, and no significant transaction took place in the first half of 2025. Detailed information on **Transilvania Investments'** transactions with related parties are provided in Note 27 to the Financial Statements prepared as at 30.06.2025, attached to this report.

Corporate Governance

Transilvania Investments Alliance is managed under a two-tier system by the Executive Board that carries out its activity under the supervision of the Supervisory Board.

In accordance with the Company's Articles of Incorporation, the **Supervisory Board** comprises five members, natural persons, elected by the ordinary general meeting of shareholders, by secret vote, for a 4-year mandate.

The Ordinary General Meeting of Shareholders of 16.12.2024 approved the election of the new Supervisory Board of the Company consisting of 5 members, namely Mr. Horia-Cătălin Bozgan, Mr. Marius-Petre Nicoară, Mr. Vasile-Cosmin Turcu, Mr. Patrițiu Abrudan and Mrs. Adriana Tiron-Tudor,

for a 4-year mandate, between 20.04.2025 and 19.04.2029; the elected members will exercise their duties only after their authorization by the Financial Supervisory Authority ([Current Report no. 8701/16.12.2024](#)).

Through the Authorization no. 42/17.04.2025, the Financial Supervisory Authority authorized the changes in the significant conditions that grounded the Company's authorization, as a result of the appointment of Professor Adriana Tiron-Tudor, PhD, as a member of the Supervisory Board, for a 4-year term, starting on 20.04.2025 and until 19.04.2029, in accordance with the Resolution no. 1/16.12.2024 of the Ordinary General Meeting of Shareholders ([Current Report no. 2399/17.04.2025](#)).

As a result, on 30.06.2025, the Supervisory Board of [Transilvania Investments](#) was composed of only one member, namely Prof. Adriana Tiron-Tudor, PhD, the other members elected by the Ordinary General Meeting of Shareholders of 16.12.2024 being still in the authorization procedure by the F.S.A.

Considering the above-mentioned situation, before the termination on 19.04.2025 of the mandate of the former Supervisory Board, the latter adopted a series of measures, implemented by the Executive Board, aimed at ensuring the proper carrying on of the Company's activity until the new Supervisory Board will be fully operational, namely it will be composed of at least three members authorized by the FSA. Some of the measures adopted in this regard by the Supervisory Board, which have been brought to the investors' attention through the [Current Report no. 2400/17.04.2025](#), are the following:

- ▶ The Executive Board may issue any norms/decisions/instructions within its competencies.
- ▶ The interim financial statements shall be approved by the Executive Board and published in accordance with the Company's Financial communication calendar, and the shareholders and investors will be informed that such statements had not been endorsed by the Supervisory Board.
- ▶ In the event of gradual authorization of the Board members, in a lower number than the minimum number required (3 members), the Executive Board shall proactively inform the authorized Supervisory Board members regarding the activities and operations carried out by the Company for which the Supervisory Board/Advisory Committees would have been consulted to issue an opinion, until the date of authorization of a fully operational Supervisory Board structure.
- ▶ The Executive Board shall promptly submit to the authorized operational Supervisory Board the documents drafted by the Company for which, usually, the Supervisory Board/Advisory Committees would have been consulted to issue an opinion.
- ▶ For the entire period in which the structure of the Supervisory Board/Advisory Committees is not operational, the Executive Board shall inform the first authorized Supervisory Board, through an Activity Report, about the activity carried out during this period.

According to the Company's Articles of Incorporation, the [Executive Board](#) consists of three members, appointed by the Supervisory Board.

On April 14, 2025, Mrs. Stela Corpacian – Executive Vice-President submitted her unilateral decision to resign as a member of the Executive Board as of April 21, 2025 ([Current report no. 2263/14.04.2025](#)).

As a result, on 30.06.2025, the Executive Board of [Transilvania Investments](#) was composed of Mr. Marius-Adrian Moldovan – Executive President (F.S.A. Authorization no. 88/09.08.2024) and Mr. Răzvan-Legian Raț – Executive Vice-President (F.S.A. Authorization no. 50/19.04.2024).

Detailed information on the management and supervisory structures of the Company is available on the website www.transilvaniainvestments.ro, Section *About us*.

Relevant events during the first half of 2025

- ▶ **Transilvania Investments** achieved the highest possible score (10/10) in the VEKTOR evaluation for 2024 conducted by the Romanian Investor Relations Association (ARIR), a result that places us in the select group of the 21 issuers listed on the Main Market that achieved the maximum score. This performance highlights the Company's commitment to excellence in investor communication and the adoption of best practices in the field. More details are available here: <https://transilvaniainvestments.ro/en/transilvania-investments-has-achieved-the-highest-possible-vektor-score-by-arir/>
- ▶ On 25.03.2025, the Company published on its website, in the *OGMS April 2025* section, the final form of the financial statements for the financial year 2024 and on 28.03.2025 – the financial statements accompanied by the Independent Auditor's Report – Forvis Mazars Romania S.R.L. The financial statements for the financial year 2024 have been approved by the Ordinary General Meeting of Shareholders on 28.04.2025 and published on the B.S.E. and F.S.A. websites and on the Company's website, in the *Investor Relations/Periodical Reporting* section.
- ▶ The Extraordinary General Meeting of Shareholders, which took place on March 10, 2025, approved the following main items:
 - the Company's buyback of its own shares, on the market where the shares are listed and/or through public tender offers, including public tender offers carried out through exchange offers (the "Buyback Programme"). The Buyback Programme will envisage the repurchase of a maximum of 185 million own shares, of which 175 million shares for the reduction of the share capital by cancelling the repurchased shares and 10 million shares for distribution under a Stock Option Plan program. The programme will run at a minimum price of RON 0.3000/share and a maximum price of RON 0.5000/share and its aggregate amount will be up to RON 92.50 million.
Should the Company carry out public tender offers through exchange offers under the Buyback Programme, the Company will offer shares issued by THR Marea Neagră S.A., symbol „EFO”, listed on the regulated market operated by Bursa de Valori București S.A., Standard category, in exchange for up to 150 million own shares, and cash for the difference.
 - the contracting by the Company of one or more loans in a total amount of up to RON 200 million, for a period up to 5 years, in order to finance the Company's investments.

The full Resolution of the Extraordinary General Meeting of Shareholders of March 10, 2025 is available on the Company's website www.transilvaniainvestments.ro, in the *EGMS March 2025* section.

- ▶ **Transilvania Investments** completed on 13.03.2025 the second stage of the buy-back programme approved through the EGMS Resolution no. 1/22.04.2024, under which the Company bought back 10 million own shares, representing 0.4624% of the share capital, at the average price of RON 0.3841/share. The completion of the 2nd stage of the buy-back programme marked the completion of the entire buy-back programme approved through the above-mentioned EGMS Resolution, which aimed at the redemption of a total number of 34 million shares, representing 1.5724% of the share capital, of which 24 million shares intended for reducing the share capital and 10 million shares,

for being freely distributed to the Supervisory Board members, Executive Board members and the identified personnel, within a Stock Option Plan program, in compliance with the Company's remuneration policy.

Detailed information on the buy-back programmes is available on the Company's website, in the [Investor Relations/Buyback notifications](#) section.

- ▶ The Ordinary General Meeting of Shareholders, which took place on April 28, 2025, approved the following main items:
 - the financial statements for the year 2024, based on the reports presented by the Executive Board, the Supervisory Board and the Financial Auditor, including the remuneration report for the year 2024;
 - the distribution of the net profit recorded in the financial year 2024 and setting of the gross dividend per share at RON 0.0150/share;
 - the achievement degree of the performance indicators for the year 2024;
 - the variable remuneration afferent to the year 2024 for the Supervisory Board;
 - the liability discharge of the Supervisory Board members (except for the liability discharge of Mr. Constantin Frățilă – member of the Supervisory Board until 31.12.2024) and the Executive Board members for the activity performed in the financial year 2024;
 - the Revenue and Expenditure Budget for the financial year 2025;
 - the appointment of Deloitte Audit S.R.L. as financial auditor for the assurance of the sustainability reporting of **Transilvania Investments Alliance S.A.**;

- the date of 20.10.2025 as the *record date* (ex-date 17.10.2025) and of the date of 28.10.2025 as the *payment date*.

The Resolution of the Ordinary General Meeting of Shareholders of April 28, 2025 is available on the Company's website, in the **O.G.M.S. April 2025** section.

- ▶ The Extraordinary General Meeting of Shareholders, which took place on April 28, 2025, approved the following main items:
 - the reduction of the Company's share capital by RON 2,400,379.70, from RON 215,044,379.70 to RON 212,644,000, following the cancelation of 24,003,797 own shares acquired by the Company under the buy-back programme approved through the EGMS Resolution no. 1/22.04.2024 and the corresponding amendment of art. 7 of the Articles of Incorporation regarding the share capital value.

The Resolution of the Extraordinary General Meeting of Shareholders of April 28, 2025 is available on the Company's website, in the **E.G.M.S. April 2025** section.

- ▶ **Transilvania Investments** published on May 14, 2025 the results recorded in the first quarter of 2025.

As of March 31, 2025, the Company achieved RON 38.99 million net profit, up 133.6% compared to the same period of 2024. The gross profit was RON 38.89 million, accounting for 46.63% of the estimated profit for the entire year 2025. The Company's net operating income reached RON 46.77 million, up 91.75% compared to Q1 2024 and RON 32.84 million above the estimates for the first 3 months of the year provided for in the revenue and expenditure budget for the current year.

The total assets at March 31, 2025 amounted to RON 1,994.90 million, up 2.73% compared to the same period last year and up 3.53% compared to December 31, 2024. Net assets reached RON 1,895.73 million (equivalent to RON 0.8957/share).

Detailed information on the Company's financial results and the activity performed in Q1 2025 are available in the Quarterly Report as at March 31, 2025, available on our website <https://transilvaniainvestments.ro/en/>, under *Periodical Reports* section.

- ▶ **Transilvania Investments** started on May 16, 2025 the first stage of the buy-back programme approved through the EGMS Resolution no. 1/10.03.2025. This stage, which will take place between May 16, 2025 and September 15, 2026, has as its object the buy-back of 40 million own shares, in order to reduce the share capital, by cancelling the bought back shares. The shares will be bought back at the minimum price of RON 0.3000/share and the maximum price of RON 0.5000/share, and the daily volume will be maximum 25% of the average daily volume of shares traded on BSE, calculated based on the average daily volume of the 20 trading days preceding the date of purchase.
- ▶ Through Authorization no. 58/22.05.2025, the Financial Supervisory Authority authorized the amendments made to the Company's Articles of Incorporation in accordance with art. 3 of the Extraordinary General Meeting of Shareholders Resolution no. 1 of 16.12.2024. The amendment and supplementation of the Company's Articles of Incorporation considered the following:
 - Correlation of some articles of the Articles of Incorporation and removal of redundant information implied or provided by the applicable regulations;

- With regard to the provisions regarding the Supervisory Board: ensuring a structure with clear attributions, in accordance with the applicable legal provisions, implementing the provisions on increasing the degree of involvement of the underrepresented sex, segregating the supervisory duties from those related to the executive management, in accordance with the relevant legal provisions, taking into account the legal provisions regarding the administration in a two-tier system, ensuring good corporate governance, in accordance with the general and special legal provisions, clarifying the duties of the Supervisory Board members, etc.
 - With regard to the provisions regarding the Executive Board: alignment with the risks derived from the exercise of duties, reflection of the protection provided by the company to the management, correlation with the provisions of the internal rules and the relevant legal provisions, etc.
- The **Articles of Incorporation**, authorized by F.S.A. through Authorization no. 58/22.05.2025, is available on the Company's website, in the Corporate Governance section.
- After the end of the reporting period, through Authorizations no. 81 and 82 of July 28, 2025, the Financial Supervisory Authority authorized the changes in the Company's organization and operation following the reduction of the share capital from RON 216,244,379.70 to RON 215,044,379.70, in accordance with the Resolution of the Extraordinary General Meeting of Shareholders no. 1/16.12.2024, and the amendment of the significant conditions based on which the Company was authorized, following the amendment to art. 7 of the Company's Articles of Incorporation, in accordance with the

Resolution of the Extraordinary General Meeting of Shareholders no. 1/16.12.2024 ([Current Report no. 5187/28.07.2025](#)). As of the date of this report, the registration of the new share capital is underway.

Investor relations

During the first half of 2025, the Company fulfilled its transparency, informing and reporting obligations, as set forth under the legal regulations and the B.S.E.'s Corporate Governance Code, both in its capacity as an issuer traded on the Bucharest Stock Exchange, as well as an Alternative Investment Fund Manager (A.I.F.M.) and Retail Investor Alternative Investment Fund (R.I.A.I.F.).

During the period under review, the Company prepared current reports, press releases and periodical reports which were brought to the shareholders and investors' attention by publishing them on the B.S.E., F.S.A. and the Company's websites, in the sections [Current reports](#) and [Periodical reports](#). The reports and press releases were disseminated simultaneously in Romanian and English language.

[Transilvania Investments](#) makes all the efforts to ensure that the shareholders' rights, as they are granted by the applicable laws, are observed, and it offers an equal and non-discriminatory treatment to all its shareholders. As concerns the shareholders' rights regarding the general meetings, during the period under review, the Company has made available to the shareholders on its website, in sections dedicated to such corporate events, both in Romanian and English language, all the documents necessary for the shareholders to be informed and able to exercise their right to vote in the Extraordinary General Meetings of Shareholders of March 10, 2025 and the Ordinary and Extraordinary General Meetings of April 28, 2025, namely: convening notices of the general meetings, draft resolutions of the general meetings, materials pertaining to the items on the agenda, voting procedure, special power of attorney forms, correspondence ballot forms, situation of the voting rights, resolutions of the General Meetings of Shareholders, including the detailed result of the vote. The shareholders had been able to exercise their right to participate and vote in the general meetings in person, by representative and by correspondence (including by electronic means).

We mention that during the reporting period there were no changes regarding the rights of the holders of shares issued by [Transilvania Investments](#).

The Company has permanently been in contact with the shareholders and investors through the Corporate Governance Department, answering their questions and requests, by e-mail, phone and at the Company's headquarters. Moreover, the stakeholders receive by email, based on subscription, a monthly newsletter with news regarding the Company's activity, the structure of the managed portfolio, the performance of [TRANSI](#) shares etc.

The Company organized on May 6, 2025 and May 20, 2025 two conference calls for investors and analysts, for the presentation of the financial results recorded in 2024, respectively in the 1st quarter of 2025. The materials presented to investors and the audio recordings are available on the Company's website www.transilvaniainvestments.ro, in the [Investor Presentations](#) section.

The activities carried out by the Company in 2024 resulted in a Vektor score (investor communication indicator for listed companies) awarded by the [Romanian Investor Relations](#)

Association, of 10 points, out of 10 possible points, thus reconfirming the sustained effort of **Transilvania Investments** for implementing best corporate governance practices, as well as the Company's focus on communicating with investors through reporting and investor events. **VEKTOR** by ARIR 2024: 26 companies listed on the BVB achieve maximum scores in the evaluation of the communication with investors

Shareholding structure as at 30.06.2025

According to the data provided by Depozitarul Central S.A, the shareholding structure of **Transilvania Investments** as at 30.06.2025 was the following:

Shareholders	Number of shareholders	Number of shares held	% of share capital
Resident individuals	6,950,329	1,071,793,222	49.56
Resident legal entities	209	1,063,690,700	49.19
Total resident shareholders	6,950,538	2,135,483,922	98.75

Shareholder remuneration in 2025

The Company's strategy regarding the remuneration of its shareholders focuses on the implementation of a balanced remuneration policy, aimed at both direct remuneration (dividend gain) and indirect remuneration (capital gain facilitated by the reduction of the trading discount and the increase in the net asset value).

In this respect, for the period 2024 – 2028, in close correlation with the level of available liquidities, the status of the portfolio restructuring, and the resources needed to carry out the investment programs, the Company considers a mix of complementary instruments for the remuneration of the capital invested in **TRANSI** shares, as follows:

- ▶ distribution of cash dividends with an attractive return by reference to the average trading price recorded in the financial year for which the dividend is calculated;
- ▶ carrying out of share buy-back programmes, followed by the cancellation of shares and reduction of the Company's share capital, subject to approval of the Company's shareholders.

The shareholders remuneration in 2025 considers the implementation of both components of the above-mentioned mix of instruments, namely distribution of dividends and running of a share buy-back programme for the purpose of reducing the share capital.

Also, through the new Strategy for the period 2024–2028, approved by the Ordinary General Meeting of Shareholders on 22.04.2024, strategy which entered into force on 30.04.2024, the Company seeks the **annual increase in the net asset value per share by at least 6%** (increase calculated before the distribution of dividends and/or other forms of shareholder remuneration) and the **annual reduction of the trading discount by at least 7%**.

In terms of dividend distribution, the Ordinary General Meeting of Shareholders of April 28, 2025 approved the distribution from the net profit achieved in the financial year 2024 of a gross dividend amounting to RON 0.0150/share, representing a dividend payout ratio of approximately 68% of the net profit (a level higher than the one set out in the **Shareholder Remuneration Policy**).

The 2024 dividend payment date approved by the Ordinary General Meeting of Shareholders is October 28, 2025 (the *payment date*). The shareholders entitled to collect these dividends are the shareholders who will be registered in the Shareholders' Register on October 20, 2025, set as the *record date*. The Company will inform the shareholders of the terms and payment methods of the dividends through a press release that will be sent to the B.S.E. and the F.S.A. and published in the press and on the Company's website. This information will also be available on Depozitarul Central's website www.rocstar.ro.

At 30.06.2025, the dividends related to the financial years 2022 and 2023 were available for payment via Depozitarul Central and Banca Transilvania. The payment of dividends is subject to the general provisions on limitation, being time-barred within three years from the date of the commencement of payment. Thus, the last payment day of the dividends afferent to the financial year 2022 is 22.06.2026, and the last payment day of the dividends afferent to the financial year 2023 is 21.07.2027.

In terms of share buy-back programmes, during December 2023 – April 2024, the Company bought-back 12 million shares representing 0.5549% of the share capital under the EGMS Resolution no. 1/24.04.2023, for the purpose of reducing the share capital by cancelling the bought-back shares. The EGMS of December 16, 2024 approved the reduction of the Company's share capital due to the cancellation of the bought-back shares and, after the end of the reporting period, through Authorization no. 81/28.07.2025, the Financial Supervisory Authority authorized the changes in the Company's organization and operation as a result of the share capital reduction from RON 216,244,379.70 to RON 215,044,379.70, in accordance with the EGMS Resolution no. 1/16.12.2024. As of the date of this report, the registration of the new share capital is underway.

Under the EGMS Resolution no. 1/22.04.2024, during June–November 2024, the Company bought-back 24,003,797 own shares, representing 1.11% of the share capital for the purpose of reducing the share capital by cancelling the bought-back shares. The Extraordinary General Meetings of Shareholders of April 28, 2025 approved the reduction of the share capital due to the cancellation of the bought-back shares, the legal steps related to the reduction of the share capital are ongoing at the date of this report.

Moreover, the Company started on May 16, 2025 the first stage of the buy-back programme approved through the EGMS Resolution no. 1/10.03.2025, stage which has as its object the buy-back of 40 million own shares in order to reduce the share capital, by cancelling the bought back shares. Until 30.06.2025, 1,731,871 shares were repurchased, the program being 4.33% completed.

By carrying out buy-back programmes to reduce the share capital, the Company aims to increase the **TRANSI** shares liquidity, with the purpose of generating value for **TRANSI** shareholders. At the same time, the running of buy-back programmes complies with the objectives of the Company's strategy in terms of maximizing the returns achieved by the shareholders and reducing the trading discount between the market price and the unitary net asset value.

Internal auditor

Transilvania Investments' internal audit function is separate and independent from other functions and activities of the Company, the internal audit activity being carried out based on a contract concluded with a legal entity auditor. Starting on 01.01.2025, the internal audit function is performed by Forvis Mazars Romania S.R.L., which was appointed by the Supervisory Board, through Resolution no. 2/29.11.2024, for a two-year term, between 01.01.2025 – 31.12.2026.

The internal audit activity is subordinated to the Supervisory Board. The internal auditor is selected by the Audit Committee and appointed by the Supervisory Board. The internal auditor's activity is carried out based on the Annual Internal Audit Plan, endorsed by the Audit Committee and approved by the Supervisory Board.

Compliance Department

The Compliance Department is subordinated to the Supervisory Board and is functionally and hierarchically independent from other organizational structures of the Company and, from a corporate governance point of view, it is part of the Company's control system. The Compliance

Officer is subject to the authorization by the Financial Supervisory Authority and is registered with the F.S.A.'s Public Register.

The AML/CFT compliance officer position, regulated by the F.S.A. Regulation no. 13/2019, is exercised, based on management decision, by one of the persons holding the key compliance function. The AML/CFT compliance officer also has responsibilities for enforcing international sanctions.

Within **Transilvania Investments**, the key compliance function is exercised by Ms. Mihaela-Corina Stoica, who carries out her activity based on the F.S.A. Authorization no. 238/25.11.2021, having at the same time duties as an AML/CFT compliance officer and a person with responsibilities regarding the enforcement of international sanctions, as well as by Mr. Dragoș-Ionuț Bosînceanu, who carries out his activity based on the F.S.A. Authorization no. 48/24.04.2025.

The objective of the Compliance Department's activity is the supervision and control of the observance by the Company and its employees of the legal provisions in force and the Company's internal procedures, for the purpose of preventing legal and internal non-compliance situations.

The activity performed by the Compliance Department in the first half of 2025 consisted mainly in managing the compliance risk with regard to the observance of the legal provisions, the Policies and procedures regarding the Company's operation as an A.I.F.M./R.I.A.I.F./issuer, and in fulfilling the objectives set forth in the Investigation Plan, approved by the Supervisory Board, which is mainly focused on: compliance with the national and EU legislation and the Company's internal regulations, observance of the reporting deadlines, endorsement of all reports prepared by the

Company, organization of the extraordinary general meeting of shareholders of March 10, 2025 and the ordinary and extraordinary general meetings of April 28, 2025, observance of the legislation and internal procedures regarding anti-money laundering and countering the terrorism financing activities and management of the international sanctions on the capital market.

Moreover, in the first half of 2025, the Compliance Officer managed the processes regarding the authorization by the Financial Supervisory Authority of the Company's governance structures following the changes that took place at the level of the Company's management and authorization of the changes in the Company's organization and operation following the reduction of the share capital (F.S.A. Authorizations no. 81 and 82/28.07.2025). The information regarding the above-mentioned authorizations was presented to investors/shareholders through current reports published on the B.S.E. website and the Company's website.

Risk management

The Risk Management Department is subordinated to the Supervisory Board and is functionally and hierarchically independent from other organizational structures of the Company.

The Risk Manager is subject to the authorization by the F.S.A. and is registered with the F.S.A.'s Public Register.

The risk manager key-function is performed by Mr. Alexandru Gavrilă who fulfils the function's duties based on the F.S.A. Authorization no. 231/11.11.2021.

Transilvania Investments implemented a risk management system that includes policies, procedures and measures for identifying, measuring and managing risks. The risk management policies and procedures are integral part of the *"Policies and Procedures regarding the **Transilvania Investments**' Operation as an A.I.F.M."*. According to the internal policies and procedures, the internal risk management system integrates competencies and responsibilities across the entire organizational structure (Supervisory Board, Executive Board, Risk Management Department, Compliance Department, Internal Auditor, operational departments). Procedures are in place for the management and monitoring of all relevant risk categories of the Company (market risk, credit risk, investment concentration risk, liquidity risk, operational risk, sustainability risks).

Investment limits

Regarding the monitoring of exposures to a particular category of financial assets, to an issuer or to a certain category of transactions, the following indicators are constantly monitored by the company:

1. The value of holdings of securities and/or money market instruments issued by the same issuer, except for securities or money market instruments issued or guaranteed by a Member State, by the local public authorities of the Member State, by a third country or international public bodies to which one or more Member States are part. The value of holdings in the same issuer cannot exceed 10% of the total assets held. The 10% limit may be raised up to 40% provided that the total value of the securities held in each of the issuers in which the company holds more than 40% does not exceed 80% of the total value of its assets. On 30.06.2025, the 22.38% of total assets

held at Banca Transilvania complies with the legal regulations as the total value of securities held in each issuer in which it holds over 40% of the total assets held accounts for 52.31% of its total assets.

2. The value of holdings of financial instruments issued by entities belonging to the same group. The value of this indicator should not exceed 50% of the total assets held. On 30.06.2025, the level of **Transilvania Investments**' holdings of financial instruments in this category is 1.31%, representing the shareholding in the Bucharest Stock Exchange group (Bucharest Stock Exchange, CCP.RO, Central Depository Bucharest).
3. The exposure to counterparty risk in a transaction with derivatives traded outside regulated markets cannot exceed 20% of the total assets held. During the first six months of 2025, **Transilvania Investments** has not invested in derivatives traded outside the regulated market.
4. The global exposure to derivatives cannot exceed the total value of the asset. During the first six months of 2025, **Transilvania Investments** has not invested in derivatives traded outside regulated markets.
5. The value of the current accounts and cash, in domestic and foreign currencies, cannot exceed 20% of total assets managed. On 30.06.2025, their level was 0.11% of the total assets.
6. The value of bank deposits opened and held with the same bank cannot exceed 30% of the total assets held. On 30.06.2025, their level was 2.88%.
7. The value of equity securities not admitted to trading on a trading venue or on a stock exchange in a third country, issued by a single A.I.F. addressed to retail investors cannot exceed 20% of the total assets. On 30.06.2025, their level was 0.34%.
8. The value of equity securities not admitted to trading on a trading venue or on a stock exchange in a third country, issued by a single A.I.F. addressed to professional investors cannot exceed 10% of the total assets. On 30.06.2025, their level was 4.30%.
9. The value of equity securities not admitted to trading on a trading venue or on a stock exchange in a third country, issued by other open-ended A.I.F. cannot exceed 50% of the total assets held. On 30.06.2025, their level was 0.34%.
10. The value of equity securities issued by a single UCITS authorized by the FSA, or by a national competent authority from another Member State cannot exceed 40% of the total assets. The value of equity securities issued by a single UCI admitted to trading, authorized by the FSA or a national competent authority from another Member State cannot exceed 40% of the total assets. On 30.06.2025, their level was 0.77% and 6.00%, respectively.
11. The value of financial instruments loans granted cannot exceed 20% of the total assets and the loans cannot exceed 12 calendar months, in accordance with the regulations issued by the FSA regarding trading margin and loan transactions. **Transilvania Investments** did not grant such loans during the first six months of 2025.

12. The value of securities, money market instruments not admitted to trading on a trading venue or on a stock exchange in a third country cannot exceed 40% of total assets held. On 30.06.2025, their level was 5.32%.
13. The value of equity interests issued by limited liability companies cannot exceed 20% of the total assets. On 30.06.2025, their level was 0.01%.
14. The value of greenhouse gas emission certificates cannot exceed 10% of the total assets. On 30.06.2025, **Transilvania Investments** has no such holdings.
15. The company cannot grant cash loans, cannot participate/subscribe to syndicated loans, cannot secure cash loans in favour of a third party, except for entities belonging to the same group as the R.I.A.I.F. which is set up as an investment company, not exceeding 10% of its assets, and cannot purchase directly or indirectly, partially or totally, portfolios of loans issued by other financial or non-financial institutions, except for investments in financial instruments issued by internationally-recognized financial institutions, credit institutions or non-banking financial institutions authorized by the NBR or other central banks from a Member State or from third countries.

The monthly analyses of the types of exposures showed that, throughout the first six months of 2025, the portfolio of financial instruments managed by **Transilvania Investments** has complied with the requirements of Law no. 243/2019.

The risk analyses performed at the end of the first six months of 2025 indicate the following **risk profile** of **Transilvania Investments**:

Type of risk/ Risk Indicator		Materiality threshold (own funds requirement/ own funds or internally established limits)	Risk appetite	30.06.2025	Limit compliance
NO.	Type of risk/exposure				

Market risk- subcategories:

1	Position risk	max. 25%	Medium	8.55%	yes
2	Foreign exchange risk	max. 4%	Medium	0.74%	yes
3	Long-term Interest risk	max. 20%	Medium	2.11%	yes
4	Commodity Risk	max. 3.75%	Medium	0.00%	yes
5	VaR (historical simulation, 20 days, 99%)	max. 25%	Medium	7.85%	yes
6	NAV per share volatility	max. 25%	Medium	9.13%	yes

Credit risk:

1	Credit risk	max. 150%	Medium	51.13%	yes
---	-------------	-----------	--------	--------	-----

Liquidity risk- subcategories:

1	LCR (net)	min. 1.3	Medium	42.26	yes
2	LCR (brut)	min. 1.2	Medium	5.92	yes
3	Financing from temporary resources	max. 50%	Low	2.55%	yes

NO.	Type of risk/ Risk Indicator	Materiality threshold (own funds requirement/ own funds or internally established limits)	Risk appetite	30.06.2025	Limit compliance
	Type of risk/exposure				
4	Portfolio liquidity (percentage of liquid portfolio in total assets)	min. 35%	Medium	59.57%	yes

Counterparty risk

Issuer risk – subcategories:

1	Exposure to high-insolvency risk companies	max. 10%	Low	0.00%	yes
2	Exposure to non-listed companies	max. 40%	According to law	9.57%	yes
3	Entity concentration risk	10% / 40%	According to law	22.38%	yes

Operational risk

1	Operational risk– standardised approach	max. 7.5%	Medium	2.28%	yes
---	---	-----------	--------	-------	-----

Leverage

1	Leverage – Gross Method	max. 2.0	Low	1.02	yes
2	Leverage – Commitment Method	max. 2.0	Low	1.07	yes

The structure of the financial instrument portfolio complies with the requirements and limits provided for by the legislation in force applicable to Alternative Investment Funds. As concerns the internally established limits, all indicators fall within the undertaken maximum levels. The capital markets continue to be characterized by a high degree of unpredictability and remain vulnerable from the perspective of high volatility periods (a fact that could determine an increase of VaR or NAVPS Volatility indicators as compared to their current level).

The leverage ratio indicator, determined according to the provisions of the Regulation (EU) No. 231/2013 *supplementing Directive 2011/61/EU with regard to general operating conditions, depositaries, leverage, transparency and supervision*, recorded at 30.06.2025 a low level according to the materiality threshold, calculated by both methods. Given that **Transilvania Investments** does not hold positions on derivative financial instruments, the value of the leverage ratio indicator, calculated according to the commitment method, does not differ from the value calculated according to the gross method (there is no compensation between long and short positions; leverage ratio according to the gross method = 1.02, leverage ratio according to the commitment method = 1.07).

Gross Method= (Total Assets Exposure – Cash and Cash equivalents – Reinvested Loans Adjustments) / Net Asset Value

30.06.2025

Total assets	Net assets	Cash and Cash Equivalents
2,121,219,778.00	1,982,263,230.81	104,140,506.11
Leverage Ratio according to the Gross Method		1.02

Commitment Method = Total Assets Exposure / Net Asset Value

30.06.2025

Total assets	Net assets
2,121,219,778.00	1,982,263,230.81
Leverage Ratio according to the Commitment Method	1.07

Situation of litigations as at 30.06.2025

At the end of the first half of 2025, the Company was involved in a relatively small number of litigations. The Company's management considers that these litigations will not have a material adverse impact on the Company's results and financial position. A special aspect is represented by the litigations initiated due to the exceptional event derived from the alleged share capital increase of the company Hoteluri Restaurante Sud S.A., which determined the **Transilvania Investments'** involvement in a series of litigations, and for which the financial impact was presented to investors together with the financial statements for 2024.

As at 30 June 2025, four litigations between the Company and its management structures were pending before the court, as follows: one litigation having as object matter claims brought by Mr. Constantin Frățilă (claims consisting of the remuneration afferent to the capacity as Supervisory Board member, uncashed during the period his authorisation was withdrawn by the F.S.A.), in process of establishing obsolescence, one litigation having as object matter the claims brought by a former member of the Executive Board (for remunerations due upon expiry of the mandate without extension), an appeal against the dismissal decision and an action for the annulment of the Resolution of the Ordinary General Meeting of Shareholders of April 28, 2025, filed by a former member of the Executive Board.

The action for annulment and respectively for the suspension of a resolution of the Supervisory Board, initiated by Mr. Constantin Frățilă, were definitively settled (waiver of the judgment in the case of the action for annulment, and the action for suspension was rejected on the merits and became final by non-appeal).

The situation of litigations in which **Transilvania Investments** was involved during the first half 2025, having as subject matters claims, defending the Company's interests, annulment of the resolutions of the general meetings of the Company's shareholders, annulment of the Supervisory Board resolutions or the Financial Supervisory Authority decisions is presented in the *Annex on litigations* in this Report. Other existing litigations concerned the defence of the interests and other patrimonial rights of the Company.

Following the regular inspection conducted by the Financial Supervisory Authority at **Transilvania Investments** during 2023 and 2024, the Authority issued sanctioning/warning decisions for some members of the Supervisory Board and the Executive Board.

As a result of the appeal filed against the above-mentioned decisions, according to the information available on the court portal, different solutions were pronounced, some of them being final, others in the process of being tried.

At the same time, following the afore-mentioned inspections, **Transilvania Investments** was sanctioned with warning, based on the F.S.A. Decision no. 1060/09.10.2023 and with fine, based on the F.S.A. Decision no. 385/18.04.2024. Both Decision no. 1060/09.10.2023 and Decision no. 385/18.04.2024 were challenged by the Company, currently both cases have been resolved on the merits by rejecting the actions, both solutions not being final.

CHAPTER 4

Financial position and performance at 30.06.2025

The interim condensed financial statements as at 30.06.2025 have been prepared in accordance with the F.S.A. Rule no. 39/2015 *on the approval of the accounting regulations compliant with I.F.R.S., applicable to entities authorized, regulated and supervised by F.S.A. from the Financial Instruments and Investments Sector*, as subsequently amended and supplemented, and they have not been audited.

At the end of first half of 2025, the financial position of the Company is summarized as follows:

Statement of financial position

–RON–

Description	30 June 2025	31 December 2024	30 June 2024

At 30.06.2025, the **total assets** of the Company increased by RON 59.34 million compared to the corresponding period of 2024 and by RON 194.26 million compared to the end of the previous year.

The Company's **liabilities** at the end of the first half of 2025 amount to RON 138.96 million, lower by RON 2.11 million than the value recorded in the same period of the previous year.

At 30.06.2025, the liabilities with maturities longer than 1 year, represented by the deferred tax calculated for the gain from fair value differences for the financial assets measured at fair value through other comprehensive income, worth RON 79.36 million, are 2.83% lower compared to 30.06.2024.

As compared to the same period of the previous year, the Company's **equity** as at 30.06.2025 increased by RON 61.45 million.

Evolution of the Net Asset Value

The Company's Statement of assets and liabilities, respectively the report on N.A.V. and N.A.V.P.S., is prepared monthly, for the end of the last day of the month, in the format requested by the F.S.A. (according to Annex 10 to the F.S.A. Regulation no. 7/2020). The net asset value is calculated by the Company, certified by the depositary company BRD – Groupe Société Générale S.A. Bucharest and sent to the F.S.A. and B.S.E. by the 15th of the following month, at the latest, and published on the Company's website.

The monthly net asset value is calculated as difference between the total value of the assets held and the aggregate value of the Company's liabilities and deferred income.

The net asset value as at 30.06.2025, compared to the same period of the previous year, had the following evolution:

–RON–

Indicators		30 June 2025	30 June 2024	Evolution (%) 2025 /2024
Total assets – calculated value		2,121,219,778	2,061,876,748	+2.88%

NAV per share, calculated according to F.S.A. Regulation no. 9/2014 (RON/share) ⁶⁾	$\frac{\text{Calculated asset value}}{\text{Number of shares}}$	0.9374

Source: Transilvania Investments Alliance

Note: The indicators are calculated according to Annex no. 13 to F.S.A Regulation no. 5/2018.

¹⁾ This indicator guarantees the covering of the current liabilities from current assets.

²⁾ It reflects the effectiveness of the credit risk management. As at 30.06.2025, the Company does not have bank loans.

³⁾ It reflects the Company's effectiveness in collecting its receivables, respectively the average number of days during which the debtors pay their debts to the Company. In the case of SIFs, turnover means the total net income from the current activity and in order to establish the average clients' balance all net receivables included in the balance sheet were calculated, the highest values being held by the debts resulting from dividends and related accessories, due and not collected.

⁴⁾ It reflects the effectiveness of the non-current assets management.

⁵⁾ Calculated by reference to the average weighted number of issued ordinary shares existing during the period, excluding the average number of bought-back shares held by Transilvania Investments at the reporting date.

⁶⁾ Calculated by reference to the number of issued and outstanding ordinary shares.

TRANSILVANIA INVESTMENTS ALLIANCE S.A.
NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS AS AT 30 JUNE 2025
(All amounts are expressed in RON, unless otherwise stated)

1. GENERAL INFORMATION

TRANSILVANIA INVESTMENTS ALLIANCE („Transilvania Investments” or the „Company”) is a company established in 1996 in accordance with Law 133/1996, which operates in Romania according to Law 31/1990 on companies, Law 297/2004 on capital market and Law no. 243/2019 regulating alternative investment funds.

The regulated market on which the issued securities are traded is the Bucharest Stock Exchange -market symbol: TRANSI as of 14 March 2022 (previous market symbol: SIF3).

The Company is a joint-stock company from a legal point of view.

The Company has its headquarters in Braşov, 2 Nicolae Iorga Street, Postal Code 500057.

Contact details of the Company are:

Phone: 0268-416171

Fax: 0268-473215

Website: www.transilvaniainvestments.ro

E-mail: office@transilvaniainvestments.ro

Registration code with the Trade Register: 3047687

Tax code: RO 3047687

Number in the Trade Register: J08/3306/1992

The Company is registered with the Securities Registration Office of the Financial Supervisory Authority, under Certificate no. 401/05.02.2020 and with the F.S.A. Register in Section 8 – Alternative Investment Fund Managers, Sub-section – Alternative Investment Fund Managers authorised by the F.S.A. (A.F.I.A.A.) under no. PJR07¹ AFIAA/080005 and in Section 9 – Alternative investment funds, Sub-section – Retail Investor Alternative Investment Funds (R.I.A.I.F.) established in Romania, under no. PJR09FIAIR/080006. According to the Articles of Incorporation, the Company’s main field of activity is *Other financial service activities not elsewhere classified* – CAEN Code 6499.

The Company performs its activity in Romania.

As at 30 June 2025, the Company’s subscribed and paid-in share capital as registered with the Trade Register is RON 216,244,379.80 (30 June 2024: RON 216,244,379.80) and is divided into 2,162,443,797 shares (30 June 2024: 2,162,443,797 shares).

The main characteristics of the shares issued by the Company are as follows: the shares are common, registered, indivisible, of equal value and dematerialized, issued at the nominal value of RON 0.10 per share.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The main accounting policies applied for preparing these financial statements in accordance with IFRS are presented below.

These financial statements are prepared on a going concern basis.

2.1 Basis of preparation

The Company’s financial statements have been prepared in accordance with the International Financial Reporting Standards, as adopted by the European Union (“IFRS”) and in accordance with the F.S.A. Rule no. 39 of 28 December 2015 on the approval of the Accounting Regulations in accordance with the International Financial Reporting Standards, applicable to the entities authorized, regulated and supervised by the Financial Supervisory Authority (“F.S.A.”) from the Financial instruments and investments sector (“Rule 39/2015”).

Starting with 1 January 2015, the Company applies the Amendments to IFRS 10 – Consolidated Financial Statements, IFRS 12 – Disclosure of interests in other entities and IAS 27 - Separate Financial Statements (“Amendments”), being the date at which the classification criteria as an investment entity were fulfilled.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.1 Basis of preparation (continued)

The Amendments introduced an exception to the principle from IFRS 10 "Consolidated Financial Statements", under which all subsidiaries must be consolidated. The Amendments define an investment entity and provide that a parent company that is classified as an investment entity must measure its subsidiaries at fair value through profit or loss instead of consolidating those subsidiaries in its consolidated financial statements, therefore the Company no longer consolidates its subsidiaries and associates and prepares only separate financial statements. The Company does not have any subsidiary providing to the Company financial investment related services. The Company's management annually assesses whether the Company maintains its investment entity status.

2.2 Basis of measurement

The financial statements of the Company have been prepared under the historical cost convention, except for the revaluation of financial instruments recognised at fair value through profit or loss, financial instruments recognised at fair value through other comprehensive income and for the fair value revaluation of land and buildings.

These financial statements have been prepared on a going concern basis which assumes that the Company will continue its activity in the foreseeable future as well. The Company's management considers that the Company will continue to operate normally in the future and, consequently, the financial statements have been prepared on this basis.

2.3 Foreign currency translation

a) Functional and presentation currency

The functional currency is the Romanian leu ("RON"). This is the currency of the primary economic environment in which the Company performs its activity. The financial statements are prepared and presented in RON, unless otherwise stated.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency monetary assets and liabilities are translated into RON currency at the official exchange rate of the National Bank of Romania ("NBR") at the end of the reporting period. The foreign currency non-monetary assets and liabilities measured at fair value, including equity investments, are translated into RON using the official exchange rate at the date of fair value measurement.

The exchange rates of major foreign currencies were the following:

Currency	30 June 2025	30 June 2024	Increase/ (decrease) (%)
Euro (EUR)	1 : RON 5.0777	1 : RON 4.9771	2.02
US Dollar (USD)	1 : RON 4.3329	1 : RON 4.6489	-6.80

The foreign exchange differences resulting from the monetary and non-monetary items are reported as follows:

- As part of "Net gains /(losses) on unrealised FX differences" in "Other operating expenses" for the registered FX differences from revaluation of cash and cash equivalents in foreign currency;
- As part of "Net gains /(losses) on FX differences realised from transactions" in "Other operating income";

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.3 Foreign currency translation (continued)

b) Transactions and balances (continued)

- c) As part of “Net gains /(losses) from financial assets at fair value through profit or loss” for the gains or losses from the revaluation of financial assets at fair value through profit or loss; and
- d) As part of “Net gains/(losses) from financial assets at fair value through other comprehensive income, net of deferred tax” for the gains or losses on the revaluation of financial assets at fair value through other comprehensive income.

2.4 Use of estimates and judgements

The preparation of the financial statements in accordance with IFRS requires the use by the management of estimates, judgments and assumptions that affect the amounts recognised in the financial statements, as well as the following year reported value of the assets and liabilities. Estimates and assumptions associated with these are based on historical experience and other factors deemed reasonable considering the given circumstances, and the result of this considerations represents the basis for the judgements used when establishing the accounting value of the assets and liabilities for which no other valuation sources are available. The results obtained may differ from the value of the estimates.

Estimates and underlying assumptions are periodically reviewed. The revisions of accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period in which the estimate is revised and future periods, if the revision affects both current period and following periods.

Change in estimates, in its nature, is not related to prior periods and is not a correction of errors.

To the extent these kinds of change in estimates give rise to changes in assets and liabilities or equity, the effect of changes is recognized by adjusting the carrying amount of the related assets, liabilities or equity item in the period of the change.

The main Notes that present estimates, judgements and assumptions with material impact on the amounts recognised in the financial statements are the following:

- Note 3.1 – Investment entity classification;
- Note 10 – Current income tax and deferred tax;
- Note 23 – Revaluation reserve for property, plant and equipment;
- Note 29 – Fair values of financial assets and liabilities;
- Note 30 – Risk management;
- Note 32 – Commitments and contingencies.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.5 General consideration regarding the accounting policies applied

If a standard or interpretation specifically applies to a transaction, to another event or a condition, then the accounting policies applied to that element, are considered selected through the application of the standard or of the respective interpretation, considering any implementation guidance issued by the International Accounting Standards Board ("IASB") for the standard or interpretation in question.

The change of an accounting policy is permitted only under one of the following conditions:

- the change is imposed by a standard or an interpretation;
- the change will provide more reliable and relevant information on the effects of transactions, events and conditions.

Any significant errors of the previous period identified with regards to the recognition, valuation, presentation or disclosure of financial statements elements must be corrected retroactively in the first financial statements that are authorized for issuance through:

- adjusting the comparatives for the previous period or periods in which the error was identified; or
- adjusting the initial balances of the assets, liabilities and equity, for the most distant period presented, if the error has occurred before the most distant period presented.

2.6 Presentation of financial statements

The financial statements are presented in accordance with IAS 1 "Presentation of Financial Statements". The Company has adopted a presentation based on liquidity, in the Statement of financial position and a presentation of the revenue and expenses according to their nature, in the Statement of profit or loss and other comprehensive income, considering that these methods of presentation provide information that is more relevant than other methods allowed by IAS 1 "Presentation of financial statements".

2.7. New Accounting Pronouncements – based on IASB effective date

The Company will present in the Notes to the annual financial statements the newly issued standards and interpretations that are compulsory for the financial year ended and how they affect the financial statements prepared for the respective financial year.

2.8. Subsidiaries and associates

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed or has rights to variable benefits that can be obtained as a result of the Company's involvement in the activity of its subsidiary and when the Company has the possibility to influence such benefits through the control held over that subsidiary.

The associates are those entities over which the Company has a significant influence over the financial and operational policies but does not have control, or shared control. The existence of significant influence is determined, in each reporting period, through the analysis of the shareholder structure of the entities in which the Company owns 20% or more of the voting rights, analysis of the constitutive acts and of the Company's capabilities to participate in the decision-making regarding the financial and operational policies of the respective entity.

However, where the Company holds less than 20% of the voting rights in an entity, but it is considered a significant shareholder and exercises significant influence in terms of representation in the Board of Directors and participation in the decision-making regarding the entity's policies, then such entity shall be classified as an associate entity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.8. Subsidiaries and associates (continued)

The Company does not exercise significant influence in companies where it holds between 20% and 50% of the voting rights (Note 13). In these companies, the Company's rights, as a minority shareholder, are protective and not participative, and the majority shareholder or the group of shareholders that hold the majority stake in such entities act without considering the Company's opinions.

The investments in subsidiaries and associates as at 30 June 2025 and 31 December 2024 are presented in Note 12.

2.9 Financial assets and liabilities

(i) Classification

a) Financial assets measured at fair value through profit or loss

The Company classifies its investments in subsidiaries and associates, as well as the financial instruments acquired mainly for active and frequent trading, the corporate bonds and the fund units as financial assets at fair value through profit or loss.

The Company deems as financial assets at fair value through profit or loss at initial recognition those assets that are not classified as held for trading, but they are managed, and their performance is measured on a fair value basis, in accordance with the Company's investment strategy.

The Company's policy requires the investment analyst and the Executive Board to evaluate the information about these financial assets on a fair value basis together with other related financial information.

b) Financial assets at amortised cost

Financial assets and liabilities are measured at amortised cost using the effective interest method less impairment losses (for financial assets). Financial assets and liabilities at amortised cost include cash and current accounts, bank deposits, dividends to be received, bonds, debts to shareholders, amounts owed to service providers and other receivables and payables.

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at the time of initial recognition, minus principal payments, plus or minus cumulative depreciation, determined through the effective interest method, of any difference between the amount initially recognized and maturity value less any impairment losses with financial assets.

A financial asset must be carried at amortised cost, except for financial assets measured at fair value through profit or loss at initial recognition, if both of the following are met:

- (i) the financial asset is held within a business model whose objective is to hold the financial assets to collect the contractual cash flows; and
- (ii) the contractual terms of the financial asset generate, at certain dates, cash flows that are exclusively payments of principal and interest on the principal due.

Financial liabilities at amortised cost are recognized at the time of initial recognition and are not attributable to a trading activity.

The Company recognises an impairment with expected credit losses on financial assets at amortised cost, in accordance with IFRS 9.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.9. Financial assets and liabilities (continued)

b) Financial assets at amortised cost (continued)

These instruments are classified in Stage 1, Stage 2 or Stage 3, depending on their relative credit quality in terms of initial payments. Thus:

- Stage 1: includes (i) newly recognized exposures; (ii) exposures for which credit risk has not materially deteriorated since initial recognition; (iii) low credit risk exposures (reduced credit risk relief).
- Stage 2: includes exposures that, although performing, have experienced a significant deterioration in credit risk since initial recognition.
- Stage 3: includes impaired credit exposures.

For Stage 1 exposures, impairment is equal to the expected credit loss calculated over a time horizon of up to one year. For Stage 2 or 3 exposures, the depreciation is equal to the expected loss calculated over a time horizon corresponding to the full duration of the exposure.

Allowances for impairment of receivables are based on the present value of the expected cash flows of the principal. To determine the present value of future cash flows, the basic requirement is to identify estimated collections, payment maturity and discount rate used.

The Company defined as “non-performing” exposures receivables that meet one or both of the following criteria:

- exposures for which the Company estimates that it is unlikely that the debtor fully pays its obligations regardless of the exposure value and the number of days for which the exposure is delayed;
- unpaid amounts.

c) Financial assets at fair value through other comprehensive income

The Company's investments in equity instruments other than those classified as financial assets at fair value through profit or loss, are classified as financial assets at fair value through other comprehensive income, based on the management decision, at initial recognition. The reason for the classification of the investments as financial assets measured at fair value through other comprehensive income is represented by the decision to hold the investments for a long term and collect the dividends. The method used to derecognise each category of financial asset at fair value through other comprehensive income is "first in, first out", given the measurement and assessment of the Company's performance at fair value.

Dividends received from entities in which the Company holds shares are recognized in the profit or loss account of the year when the Company has the right to receive dividends, and it is probable that these will be collected.

Changes in the fair value are recognized in other comprehensive income until the investment is derecognized or depreciated, when the accumulated gain or loss is reclassified from other comprehensive income to retained earnings account for the period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The best evidence of fair value is the price in an active market. An active market is that market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The Company believes that the accurate determination of the fair value is an essential requirement for presenting information that is useful to the investors and the Company's key personnel for proper decision-making purposes.

The estimation of fair value of financial instruments held by Transilvania Investments is performed according to the related policy, procedure and methodology on the valuation of assets for financial reporting purposes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.9. Financial assets and liabilities (continued)

c) Financial assets at fair value through other comprehensive income (continued)

The methods were established separately for:

- a) equity investments (shares held in companies);
- b) corporate bonds and government securities;
- c) fund units.

According to IFRS 13, according to the input data used in the valuation model, the fair value levels are defined as follows:

- Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 inputs: unobservable inputs for the asset or liability.

(ii) Amortised cost measurement

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the “effective interest method” of any difference between that initial amount and the amount payable at maturity, minus any reduction for impairment losses in the case of financial assets.

Accrued interest includes amortisation of transaction costs deferred at initial recognition and of any premium or discount to maturity amount using the effective interest method.

Accrued interest income and accrued interest expense, including both accrued coupon and depreciation discount or premium (including fees deferred at origination, if any), are not presented separately but are included in the carrying amount of related items in the statement of financial position.

(iii) Recognition

Financial assets and financial liabilities are initially recognised at fair value plus directly attributable transaction costs, in the case of financial assets and financial liabilities not carried at fair value through profit or loss.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial instrument. An incremental cost is one that would not have been incurred if the transaction had not taken place. Transaction costs include fees and commissions paid to agents, advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs.

The Company initially recognises bank deposits on the date that they are originated. All other financial assets and liabilities (including assets and liabilities measured at fair value through profit or loss) are initially recognised on the settlement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.9. Financial assets and liabilities (continued)

c) Financial assets at fair value through other comprehensive income (continued)

(iv) *Derecognition*

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

The Company fully derecognises a financial liability when its contractual obligations are discharged or cancelled or have expired.

(v) *Offsetting*

Financial assets and liabilities are offset, and the net amount is presented in the statement of financial position only when there is a legally enforceable right to set off the recognised amounts, and there is an intention to either settle on a net basis, or to realise the asset and settle the liability simultaneously. Such a right of set off (a) must not be contingent on a future event and (b) must be legally enforceable in all the following circumstances:

- (i) in the normal course of business,
- (ii) the event of default, and
- (iii) the event of insolvency or bankruptcy.

2.10 Property, plant and equipment

(i) *Recognition and measurement*

The property, plant and equipment are presented at their revalued value less accumulated depreciation and provision for impairment losses. Capital expenditure on property, plant and equipment under construction is capitalized and depreciated once the assets enter use.

Property, plant and equipment are subject to revaluation with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. If there is no market-based evidence of fair value, fair value is estimated using an income approach. Increases in the carrying amount arising on revaluation are credited to other comprehensive income and increase the revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised in other comprehensive income and decrease the previously recognised revaluation surplus in equity while all other decreases are charged to profit or loss for the year.

The revaluation reserve for property, plant and equipment included in equity is transferred directly to retained earnings when the revaluation surplus is realised on the retirement or disposal of the asset.

Upon revaluation of property, plant and equipment, accumulated depreciation at the date of revaluation is treated as follows: accumulated depreciation at the date of revaluation is eliminated from the gross carrying amount of the asset and the gross carrying amount after the recording of revaluation is equal to its revalued amount; this method is used when it is performed a detailed valuation of the land and building portfolio.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.10. Property, plant and equipment (continued)

(i) Recognition and measurement (continued)

The revaluation of property, plant and equipment is made at fair value, which is determined based on evaluations made by authorised external valuers.

The latest revaluation of the Company's property, plant and equipment was performed at December 31, 2022, by REVALTEX SRL (independent valuator – ANEVAR member), resulting in an increase of RON 4,176,746 and 33% respectively.

Gains and/or losses from de-recognition of tangible assets is determined as difference between revenues from sales of tangible assets and the expenses with their disposal and are recognized in profit or loss for the year (within other operating income or expenses).

(ii) Subsequent costs

The amounts paid or payable, generated by the repairs and daily maintenance costs of the tangible assets owned, are recorded as expense, according to the accrual accounting principle, changing the value of the Company's profit or loss of the period.

The amounts paid or to be paid, generated by activities that will lead to an increase in the value and/or the useful life of the asset, through the upgrade of the tangible assets owned, and the activities that lead to a significant increase in the technical parameters which increase the potential of obtaining future economic benefits are capitalised in the value of the tangible assets (increasing the accounting value of that asset).

The Company recognises the cost of a partial replacement of an item of property, plant and equipment in its carrying amount when such cost is incurred, if the IAS 16 recognition criteria are met, and the carrying amount of the replaced part is derecognised whether or not the replaced part was amortised separately. If the carrying amount of the replaced part cannot be determined, the replacement cost will be used as indication of the cost value of the replaced part upon acquisition or construction.

(iii) Depreciation

Depreciation expense for each reporting period is recorded in the profit and loss account.

Depreciation is calculated using the accounting value (acquisition cost or revalued value) using the straight-line depreciation method, on the entire useful life of the asset (starting with the date of entry into service) and is recorded as expense monthly.

Depreciation of an asset begins when the asset is available for use, when it is in the location and condition necessary for it to operate in the manner intended by the management. The depreciation of an asset ceases at the earlier of the date the asset is classified as held for sale (or included in a disposal group that is classified as held for sale), in accordance with IFRS 5, "Non-current assets held for sale and discontinued operations" and the date that the asset is derecognised.

Each part of an item of tangible asset that presents a significant cost to the total cost of that item, shall be depreciated separately.

Depreciation methods and useful lives are established at each reporting date.

Land is not depreciated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.10. Property, plant and equipment (continued)

(iii) Depreciation (continued)

Categories	<u>Years of depreciation</u>
Building	50
Other equipment, furniture and other tangible assets	up to 12
Vehicles	up to 6

The accounting value of a tangible asset must be derecognised:

- a) at sale; or
- b) when there is no future benefits expected from the use of the asset or from the sale.

The gain or loss that results from the derecognition of a tangible asset is included in the profit and loss account when the item is derecognised.

2.11 Intangible assets

Intangible assets include software and licences.

Intangible assets that are acquired by the Company are initially valued at cost. Cost is represented either by the amount of cash or cash equivalents paid, or the fair value of other consideration given, to acquire the asset at the time of its acquisition.

For measurement subsequent to initial recognition, the Company applies the cost model, meaning that intangible assets are carried at cost less accumulated amortisation and impairment losses.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful life of the software, from the date that it is available for use. The estimate useful life for software is between 1 to 3 years and licenses are amortised on the validity period, using the straight-line method.

2.12 Leases

(i) Recognition

Starting with the year 2019, the Company applies IFRS 16 - Lease Contracts ("IFRS 16") which replaces IAS 17. Thus, according to IFRS 16, a contract is or contains leasing if it confers the right to use an identifiable asset for a period in exchange for a consideration. At the date of commencement of the contract a lessee shall recognise an asset relating to the right of use and a liability arising from the lease contract.

As previously under IAS 17, lessors classify leases as operating or financial. A lease is classified as a finance lease if it substantially transfers all the risks and rewards incidental to the ownership of an underlying asset. Otherwise, a lease is classified as an operating lease. For finance leases, a lessor recognizes financial income over the lease term, based on a pattern that reflects a constant periodic rate of return on net investment. The lessor recognizes operating lease payments as income on a straight-line basis or, if more representative of the pattern in which the profit from the use of the underlying asset is diminished, another systematic basis.

The Company decided, as allowed by the standard, not to apply the provisions of IFRS 16 for short term lease agreements with a term of less than 1 year and those with a low value of the asset (less than USD 5,000).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.12. Leases (continued)

(ii) Valuation

Initially, the right to use the underlying asset is valued at cost.

The cost of the right-of-use asset includes:

- a) the amount of the initial assessment of the debt arising from the leasing contract;
- b) any leasing payments made on or before the date of commencement of the proceedings, minus any leasing incentives received;
- c) any initial direct costs incurred by the lessee; and
- d) an estimate of the costs (disassembly, restoration of premises) to be borne by the lessee either on the date of commencement or on the date of the end of the contract.

The lease liability is initially measured at the present value of the lease payments payable over the lease term, using the rate implicit in the lease if it is readily determinable. If this rate cannot be easily determined, the lessee will use its incremental borrowing rate.

At the time of commencement, the lease payments included in the assessment of the debt arising from the lease shall comprise the following payments relating to the right to use the underlying asset during the term of the lease which are not paid on the date of commencement of the lease:

- a) fixed payments;
- b) variable lease payments which depend on an index or rate, initially assessed based on the index or rate from the date of commencement of the course;
- c) residual value amounts;
- d) the exercise price of a purchase option if the lessee is reasonably certain to exercise the option;
- e) payments of penalties for termination of the lease, if the duration of the lease reflects the exercise by the lessee of an option to terminate the lease.

iii) Further assessment of the right-of-use asset

It is based on the cost model, the right-of-use asset is valued at the initial cost minus any accumulated depreciation and any accumulated depreciation losses respectively adjusted for any debt revaluations.

Depreciation shall be calculated in accordance with IAS 16 and shall be carried out throughout the contract period, i.e. the useful life of the underlying asset, applying the linear depreciation method.

After the start date of the contract, the debt increases to reflect interest and decreases to reflect the lease payments made. Interest expense on the debt arising from the lease is reflected in the profit or loss account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.13 Investment property

i) Initial recognition

Investment property is property held by the Company to earn rentals or for capital appreciation or both and not to be used for the production or supply of goods or services or for administrative purposes or sold during the normal course of business.

An investment property is recognized as an asset only if:

- it is probable that the future economic benefits associated with the property will flow to the Company;
- the cost of the property can be measured reliably.

An investment property is initially measured at cost, including transaction costs. The cost of an investment property includes all costs related to its acquisition price plus any directly attributable expenses.

(ii) Subsequent measurement

The Company measures the investment property at fair value, changes in the fair value of investment property being recognized in profit or loss.

Gains or losses on changes in the fair value of investment property are recognized in profit or loss for the period in which they arise.

(iii) Transfers

Transfers to, or from, investment property are made when and only when there is a change in use of the respective asset. For the transfer of investment property carried at fair value to property, plant and equipment, the implicit cost of the asset for the purpose of its subsequent accounting will be its fair value on the date of the change in use.

If a real estate property used by the Company becomes an investment property that will be accounted at fair value, the Company applies IAS 16 until the date of the change in use.

(iv) Derecognition

The carrying amount of an investment property is derecognised on disposal or when the investment is permanently withdrawn from use and no future economic benefits are expected from its disposal. Gains or losses resulting from the sale or scrapping of an investment property are recognized in profit or loss when it is sold or disposed of.

2.14 Impairment of non-financial assets

At each balance sheet date, the Company must verify if there are indications of asset impairment. Where such indication exists, the Company estimate the asset's recoverable amount as the greater of its value in use and its fair value less any associated costs incurred to sell the asset.

2.15 Cash and cash equivalents

Cash and cash equivalents consist of petty cash and cash at bank, including short-term deposits. Cash and cash equivalents are carried at amortized cost in the statement of financial position.

For the purposes of preparing the cash flow statement, cash and cash equivalents include petty cash, current bank accounts, including deposits with original maturity up to 3 months, cash in transit, other short-term investments that are convertible into cash at any time and that are subject to an insignificant risk of change in value and overdraft facilities as well as their accompanying receivables.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.16 Trade receivables

Trade receivables are included in the category of financial assets (refer to Note 2.9 *Financial assets and liabilities – b) Financial assets at amortised cost*). Trade receivables are carried at original invoice amount less any allowance (impairment adjustment) created.

2.17 Provisions

Provisions for liabilities and charges are non-financial liabilities with uncertain maturity or value.

A provision is recognised in the statement of financial position when the Company has a current legal or implicit obligation generated by a past event, it is likely that an outflow of economic benefits will be required to settle the respective obligation, and the amount can be reliably estimated.

2.18 Contingent liabilities and contingent assets

Contingent liabilities are not recognized in the financial statements. They are disclosed in Notes, unless the possibility of an outflow of economic benefits is removed.

Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

2.19 Dividends payable (at amortised cost)

The Company records a liability to pay dividends in the year when the distribution of the profit on dividends is approved by the General Shareholders Meeting.

Dividends payable recognized in the statement of financial position are financial liabilities. Financial liability is extinguished either by paying the amounts owed to the shareholders or when the obligation expires, i.e. after the 3 years from the dividend payment date, when dividends are prescribed in accordance with the Romanian law, if the shareholders did not collect them within this period. As such, the financial liability represented by the dividends prescribed after the end of the statutory period of 3 years from the payment date is directly reversed in profit or loss and included in "Other operating income".

2.20 Share capital

Ordinary shares are classified as equity.

2.21 Trade payables and liabilities

Trade payables are recognised based on the accrual accounting when the counterparty has fulfilled its contractual obligations (except prepaid expenses) and are carried at amortised cost.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.22 Employee benefits

Short-term benefits

Short-term employee benefits include salaries, bonuses and social security contributions. Short-term employee benefits are recognised as an expense when services are rendered.

In the normal course of business, the Company makes payments to the public pension, health care and unemployment systems. All employees of the Company are members of the State pension plan and have the legal obligation to contribute to the state scheme (through social contributions). All the contributions due by the Company are recognised in the profit and loss account of the year when the expenses are incurred.

In addition to salaries and other salary rights, the members of the Supervisory Board, the members of the Executive Board and the Company's employees have the right to receive a variable remuneration, in accordance with the remuneration policy approved at the Company level. The Company includes these benefits in the short-term benefits.

Benefits granted to the Supervisory Board members, Executive Board members and Company's personnel

In accordance with the remuneration policy approved by the shareholders in April 2024, the structure of staff remuneration is composed of two main elements: fixed remuneration and variable remuneration and/or other benefits. Variable remuneration is the form of payment or additional indemnity paid by the Company, being intended to recognize the performance of the identified personnel within a certain period, and it is a differential element of the remuneration package.

The variable remuneration is granted subject to the following general limitation: the variable remuneration will not exceed 1.2% of the average total assets value, related to the year for which the variable remuneration is established, calculated and reported according to the legal provisions in force.

The members of the Supervisory Board and Executive Board and the Company's staff are entitled to receive variable remuneration in the form of shares issued by the Company, within Stock Option Plan (SOP) programs, annually approved by the Company's shareholders, in compliance with the legal provisions in force regarding the variable remuneration within the A.I.F.M.

The variable remuneration is paid 100% by granting instruments/shares issued by the Company:

- 60% of the variable remuneration is the initial component, the difference of 40% is subject to the deferral period;
- The minimum deferral period is 3 years;
- The 40% component, subject to the deferral period, is granted proportionally at the end of each of the three years.

For these remunerations, the Company recognizes an expense in the period when the services were provided, in correspondence with an increase in equity (benefits granted to employees and management in the form of equity instruments) for the shares granted under the SOP programs.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.23 Income tax expense

The current income tax includes both the current income tax and the deferred income tax. Income tax is recognized in profit or loss or in equity if the tax is related to equity components.

Current income tax is the tax payable on the taxable profits of the period, determined using the tax rates available at the balance sheet date and any adjustments related to prior periods.

2.24 Deferred tax

The deferred tax is provided using the balance sheet method, using the temporary differences arising between the tax base for calculating the tax for assets and liabilities and their carrying amount. The deferred tax is calculated using the tax rates that are expected to be applied to temporary differences when achieving the carrying amount of assets and liabilities, as it is specified in the laws in force at the reporting date.

Deferred tax receivables are recognized to the extent that will be obtained future probable taxable profits sufficient to allow the existence of these claims. Deferred tax receivables are reduced accordingly if it is considered that is not probable to obtain a related tax benefit. The main temporary differences arise from movements in the fair value and impairment of financial assets at fair value through other comprehensive income. The Company registers deferred tax liabilities from holdings classified as financial assets at fair value through other comprehensive income and from reserves from revaluation of tangible assets.

On 30 June 2025, the tax rate used to calculate the current and deferred tax was 16% (30 June 2024: 16%).

2.25 Basic and diluted earnings per share

Basic and diluted earnings/ (loss) per share is calculated by dividing the profit or loss for the year by the weighted average number of ordinary paid shares in issue during the year, excluding the average number of ordinary shares purchased by the Company and held as treasury shares.

The weighted average number of ordinary shares outstanding during the year is the number of ordinary paid shares outstanding at the beginning of the year, adjusted by the number of ordinary shares bought back during the year (based on their settlement date) multiplied by a time-weighting factor. The time-weighting factor is the number of days that the shares are outstanding as a proportion of the total number of days in the reporting year.

As at 30 June 2025 and 30 June 2024, none of the Company's issued shares or other instruments had dilutive effect, therefore basic and diluted earnings per share are the same.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.26 Revenue recognition

The Company recognises income from financial instruments in accordance with IFRS 9. The Company considered the provisions of IFRS 15 the conclusion is that the Company did not obtain income from the contracts concluded with clients.

The revenues recorded by the Company are accounted for by their nature (operational, financial), on an accrual basis.

Revenue is measured at the fair value of the consideration received or receivable. When the result of a transaction involving the rendering of services cannot be estimated reliably, revenue shall be recognized only to the extent of the expenses recognized that are recoverable.

2.27 Interest income and interest expense

Interest income and interest expenses corresponding to financial instruments are recognized in profit or loss using the effective interest method based on accrual basis. The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or expense over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash flows payable or receivable during the expected life of the financial instrument or, when appropriate, a shorter period, to the gross carrying amount of the financial asset or amortised cost of a financial liability. To calculate the effective interest rate, the Company estimates the cash flows, considering all contractual terms of the financial instrument, but does not account for future credit losses. The calculation includes all fees paid or received between the parties that are part of the effective interest rate, transaction costs, and all other premiums or discounts.

2.28 Dividend income

Dividends on equity instruments are recognised in profit or loss as “*Dividend income*” when the Company's right to receive such income is established.

2.29 Net gains / losses from sale of financial instruments

a) Net gains / (losses) from financial assets at fair value through profit or loss

Net gains/(losses) from financial assets at fair value through profit or loss include both the changes in fair value from marking-to-market and the income from the sale of these financial instruments.

b) Net gains / (losses) from disposal of financial assets at fair value through other comprehensive income

Net gains or losses from disposal of financial assets at fair value through other comprehensive income include the revaluation reserve of financial assets at fair value through other comprehensive income.

Income from the sale /disposal of investments held will be recognized at the date when the property right is transferred from seller to buyer, using the accounting value at the transaction date.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and assumptions are continuously evaluated and are based on historical experience and other factors, including expectations of future events believed to be reasonable under the circumstances. In addition to experience and historical information, the Company also considers in evaluating these effects the current conditions in the financial industry.

3.1 Investment entity classification

The Company applied the Amendments to IFRS 10, IFRS 12 and IAS 27 starting 1 January 2015 when, after considering the criteria provided for by the Amendments, the Company's management concluded that the Company qualifies for classification as an investment entity. Thus, a company classified as an investment entity is not required to consolidate any of its subsidiaries.

The Management of Transilvania Investments assesses annually whether the Company maintains its investment entity status. Thus, the Company re-assessed in 2022 the investment entity criteria and concluded that it meets such criteria, since the Company still:

- a) obtains funds from one or more investors for the purpose of providing those investor(s) with investment management services;
- b) commits to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- c) measures and evaluates the performance of substantially all its investments on a fair value basis.

In addition, the Company has other characteristics specific to an investment entity, as follows:

(a) Investment-related services

The Company is a joint stock company which operates as a closed-end financial investment company, directly providing investment management services for its investors; the Company's main business activities are exclusively the activities specific to closed-end investment companies.

(b) Business purpose

In accordance with the Articles of Incorporation, the Company's purpose is to increase the value of the invested capital, through an efficient administration and management of its own assets.

The Company's Strategy for 2024 – 2028 and the Investment Policy Statement for 2024 – 2028, approved by the General Meeting of Shareholders, are public information which are presented on the Company's website and can be consulted by shareholders, potential investors and/or any other third parties.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES (continued)

3.1 Investment entity classification (continued)

(c) Exit strategy

Starting with 1 January 2015, the Company applies an exit strategy which is based on continuous monitoring of the investments made under the approved investment programs and on continuous analysis of current market conditions, aiming to identify the optimal exit moments so as to fulfil the objectives set by the annual revenue and expenditure budgets, respectively achieving aggregate higher yields.

The Company applies an exit strategy adapted to the specificity of each investment category, defined based on the following elements: the applied strategy, the investment time horizon and the triggering factors of the exit transaction. The exit strategy is reviewed annually.

(d) Fair value measurement

Starting with 1 January 2015, all financial investments of the Company are measured at fair value. The investments in subsidiaries and associates, as well as the corporate bonds issued by the latter and owned by the Company, are classified as financial assets measured at fair value through profit or loss. The other investments in shares, bonds and fund units have been classified as financial investments available for sale and, starting 1 January 2018, further to the application of IFRS 9, they have been classified as financial investments measured at fair value through other comprehensive income.

The fair value of the financial instruments held by Transilvania Investments is estimated according to the internal procedure and related methodology.

A company classified as an investment entity is not required to consolidate any of its subsidiaries.

The information described above is presented in Note 12.

TRANSILVANIA INVESTMENTS ALLIANCE S.A.
NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS AS AT 30 JUNE 2025
(All amounts are expressed in RON, unless otherwise stated)

4. DIVIDEND INCOME

The dividend income recorded by the Company as at 30 June 2025, compared to 30 June 2024, is the following:

Entity	30 June 2025	%	30 June 2024	%
BANCA TRANSILVANIA	23,921,305	10.75	14,564,034	25.13
BRD GROUPE SOCIETE GENERALE	11,959,156	20.37	26,795,986	46.23
EVERGENT INVESTMENTS SA	8,347,045	14.22	3,327,816	5.74
OMV PETROM SA BUCURESTI	7,536,730	12.84	7,629,591	13.16
HIDROELECTRICA S.A.	1,103,332	1.88	1,755,345	3.03
MECANICA CODLEA SA	1,091,215	1.86	763,125	1.32
TRANSILVANIA INVESTMENTS ALLIANCE REAL ESTATE S.A.	1,047,352	1.78	1,301,884	2.25
INTERNATIONAL TRADE&LOGISTIC CENTRE SA	904,377	1.54	-	-
INDEPENDENTA SA	811,237	1.38	-	-
CASA ALBA INDEPENDENTA SA	547,728	0.93	-	-
TRANSGAZ SA	287,621	0.49	-	-
FONDUL PROPRIETATEA SA	282,695	0.48	854,985	1.48
ALTELE	862,894	1.48	967,030	1.66
Total	58,702,687	100.00	57,959,796	100.00

5. NET GAINS/LOSS FROM FINANCIAL ASSETS MEASURED AT FAIR VALUE THROUGH PROFIT OR LOSS

	30 June 2025	30 June 2024
Net gains / (loss) from the sale of financial assets measured at fair value through profit or loss	4,220,280	10,128,771
Net gains / (loss) from the revaluation of financial assets measured at fair value through profit or loss	57,124,088	22,419,649
Total	61,344,368	32,548,420

The trading environment in the first half of 2025 was volatile, characterized by an increased degree of unpredictability due to the domestic and global political developments.

During the first half of 2025, the most important negative fair value adjustment (unrealised loss) was recorded in the case of the stake held in Mecanica Codlea (-RON 1.09 million). The negative adjustment is the effect of the ex-dividend correction recorded during the first six months of the year (which fully offsets the negative adjustment reflected in fair value).

The most important positive fair value adjustment (unrealised profit) was recorded in the case of an issuer operating in the travel and leisure sector, namely Turism Felix S.A. (+RON 52.68 million).

During the similar period of 2024, the most important negative fair value adjustment (unrealised loss) was recorded in the case of stake held in Transilvania Investments Real Estate S.A. (-RON 1.30 million). The negative adjustment is the effect of the ex-dividend correction recorded during the first six months of the year, as a result of the remuneration policy implemented by Transilvania Investments Real Estate S.A. (correction which fully offsets the negative adjustment reflected in the fair value).

The most significant positive fair value adjustment (unrealised profit) was recorded in the case of an issuer operating in the travel and leisure sector, namely Turism Hoteluri si Restaurante Marea Neagra (+RON 11.80 million).

Net gains and losses from the sale of shareholdings measured at fair value through profit or loss have been calculated as difference between the amounts cashed from the sale of these shareholdings and their fair value at the date of the last annual financial statements.

TRANSILVANIA INVESTMENTS ALLIANCE S.A.
NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS AS AT 30 JUNE 2025
(All amounts are expressed in RON, unless otherwise stated)

5. NET GAINS/LOSS FROM FINANCIAL ASSETS MEASURED AT FAIR VALUE THROUGH PROFIT OR LOSS (CONTINUED)

The most significant profit achieved during the first half of 2025 was registered from the sale of 78,671,859 shares issued by T.H.R. Marea Neagra within the Tender Offer run by this issuer. During the reporting period, no net losses from the sale of shares and fund units have been recorded.

During the similar period of 2024, the Company performed sale operations in accordance with the exit strategy approved at Transilvania Investments level (defining principle of any investment entity). The most important profit achieved during the first half of 2024 was registered from the partial sale of the stake held in OMV Petrom (RON 2.31 million). During the reporting period, the Company recorded insignificant net losses from the sale of shares and fund units amounting to -RON 0.06 million (-RON 0.04 million – shares issued by One United Properties).

6. OPERATING INCOME

	30 June 2025	30 June 2024
Net gains / losses on foreign exchange differences from transactions	25,024	3,529
Other operating income	120,982	74,386
Total	146,006	77,915

7. EMPLOYEE EXPENSES

Total	1,529,946	1,445,933

TRANSILVANIA INVESTMENTS ALLIANCE S.A.
NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS AS AT 30 JUNE 2025
(All amounts are expressed in RON, unless otherwise stated)

9. OPERATING EXPENSES

	30 June 2025	30 June 2024
Legal expenses	541,095	143,641
Other tax expenses (i)	212,819	264,403
Depreciation and amortization expenses	860,087	686,853
Audit expenses	311,802	217,663
Postal and telecommunication charges	45,375	68,550
Consumable materials expense	143,426	166,684
Insurance premium charges	120,457	92,133
Utilities expense	132,904	76,080
Travel expenses	87,559	90,885
Sponsorship expenses	495,800	95,500
Rent	99,213	75,351
Maintenance and repairs expenses	32,990	225,521
Net gains/(losses) from unrealised foreign exchange differences	22,950	(274)
Other expenses (ii)	2,575,087	2,330,612
Total	5,681,564	4,533,602

- (i) Other tax expenses line includes local taxes for buildings, vehicles, land.
- (ii) Other expenses line includes consulting services, IT system maintenance, financial expenses, archiving, translation services etc.

10. CURRENT INCOME TAX AND DEFERRED TAX

The differences between regulations issued by the Romanian Ministry of Finance and the accounting rules applied in preparing these financial statements give rise to temporary differences between the carrying value and fiscal value of certain assets and liabilities.

The deferred income tax will be calculated in case of temporary differences using the taxing rate applicable at the date of such differences.

Income tax comprises the following:

	30 June 2025	30 June 2024
Current income tax expense	-	(4,559,273)
Deferred tax income	275,445	-
Total	275,445	(4,559,273)

TRANSILVANIA INVESTMENTS ALLIANCE S.A.
NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS AS AT 30 JUNE 2025
(All amounts are expressed in RON, unless otherwise stated)

10. CURRENT INCOME TAX AND DEFERRED TAX (CONTINUED)

Deferred tax analysed by source of temporary difference

Differences between the regulations issued by the Romanian Ministry of Finance and the IFRS accounting principles give rise to temporary differences between the carrying amount of assets and liabilities used for financial reporting purposes and their tax bases. The tax effect of the movements in these temporary differences is detailed below.

	1 January 2025	Credited/ (charged) to other comprehensive income	Credited to profit or loss	30 June 2025
Tax effect of deductible/(taxable) temporary differences				
Fair valuation of financial assets measured through other comprehensive income (Note 22)	(69,367,196)	(10,755,464)	-	(80,122,660)
Fair valuation of tangible assets (Note 23)	(1,382,077)	-	-	(1,382,077)
Variable remuneration	2,148,663	-	-	2,148,663
Net deferred tax liability	(68,600,611)	(10,755,464)	-	(79,356,074)

11. CASH AND CASH EQUIVALENTS

	30 June 2025	31 December 2024
Current accounts at banks, in RON	646,015	1,249,678
Current accounts at banks, in foreign currency	1,620,366	505,384
Bank deposits, in RON	103,489,070	16,749,446
Petty cash, in RON	4,576	2,761
Total	105,760,027	18,507,269

At 30 June 2025 and 31 December 2024 cash and cash equivalents presented in the financial statements are neither past due, nor impaired.

The bank deposits, at 30 June 2025 and 31 December 2024, have a contractual maturity of up to 1 month.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS AS AT 30 JUNE 2025
(All amounts are expressed in RON, unless otherwise stated)

12. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (CONTINUED)

Corporate bonds measured at fair value through profit or loss, held by the Company as at 30 June 2025, compared to 31 December 2024 are the following:

Entity	Currency	No. of units 30 June 2025	No. of units 31 December 2024	Fair value 30 June 2025	Fair value 31 December 2024
Sibarex SA	RON	900,000	900,000	-	-
Total				-	-

At 30 June 2025, the Company held corporate bonds issued by the following entity:

- *Sibarex S.A.* – bonds with a total nominal value of RON 2.25 million. The bonds are not listed, non-convertible into shares, and issued at a nominal value of RON 2.50/ bond, with a 3-year maturity (maturity date: 21 November 2016) and an annual interest rate represented by ROBOR 6M + 2.00%. Interest payments are made quarterly. At 30 June 2025, accrued interest related to these bonds was RON 211,247. Principal and interest must be repaid in full by the repayment date or anticipated (partial or total) at the issuer's request. Given the Resolution of the issuer's Extraordinary General Meeting of Shareholders of 14.11.2016 regarding the company's dissolution followed by liquidation, the fair value of the bonds at 30 June 2025 is zero (31 December 2024: zero). The bonds are secured with pledge without dispossession on the production equipment up to the value of bonds underwritten and paid, plus the estimated interest for the entire period. Through Civil Decision no. 288/03.10.2017, the simplified procedure of bankruptcy and dissolution of the company was initiated.

At 30 June 2025, the Company holds government securities as follows:

Issuer	30 June 2025			31 December 2024	
	Currency	No. of securities	Fair value	No. of securities	Fair value
M.F.P. (ISIN RO7P95F9FNY6)	RON	4,500	20,675,167	4,500	20,042,303

12. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (CONTINUED)

The portfolio managed by the Company includes fund units issued by investment funds with a diversified investment policy. The funds have a high exposure on shares, which places them in a medium / medium-high risk class. Of these, only the BET-FI Index follows the evolution of a stock index (the BET-FI index).

- **Fondul Privat Comercial**

Fondul Privat Comercial is an alternative investment fund, which places the attracted resources in listed shares issued by financial companies, bonds, fund units and bank deposits. The fund's objective is to increase the value of the invested capital and to obtain income. The Fund will not invest in: promissory notes and other money market instruments such as bills of exchange, structured products, derivative financial instruments, traded outside regulated markets, corporate bonds not admitted to trading on a regulated market, Swap instruments and SFT - securities financing transaction. The synthetic risk indicator places the fund in risk class 5.

- **Fondul deschis de investitii BT MAXIM**

BT Maxim is an equity fund that addresses dynamic investors, with high risk profile, looking for capitalizing on their own assets through listed shares market. At present, the portfolio is focused on the energy and financial sectors, being focused on pro-cyclical shares that will benefit from the current context characterized by high goods prices and raising interest rates. The fund invests at least 85% in shares and the remaining 15% is invested in fixed income instruments. The synthetic risk indicator places the fund in risk class 3.

- **Fondul deschis de investitii Napoca**

FDI Napoca is an open-ended investment fund with the fundamental objective of increasing the value of invested capital and which places most of its attracted resources in shares listed on regulated markets in Romania. The Fund states that the investment objective can be achieved through a medium- and long-term investment policy oriented towards listed shares, aiming to obtain profits as a result of the increase in the value of the investments made. The synthetic risk indicator places the fund in risk class 5.

- **Fondul Deschis de Investitii GlobUS BlueChips**

FDI GlobUS BlueChips is an open-ended investment fund with a medium- and long-term investment policy focused on shares listed on regulated markets in the United States of America. The fund invests in shares issued by companies included in the main American indexes, characterised by a high stock exchange capitalisation, a high capacity of the management to obtain profit and a high return on capital invested. The synthetic risk indicator places the fund in risk class 5.

- **Fondul de Investitii Alternative Professional Globinvest**

The fund has a medium- and long-term investment policy, focused on shares with high growth potential, discounted and/or interest-bearing debt securities such as government, municipal or corporate bonds, bank deposits, ownership securities issued by collective investment undertakings. The fund will invest in financial instruments issued in Romania, preferably in the financial sector.

Total	1,139,687,136	1,027,186,801

	30 June 2025	31 December 2024
Carrying amount as at 1 January	1,027,186,801	875,074,595
Net gains /losses on fair value, of which:		
- Net gains/(losses) on mark-to-market during the period (Note 24)	92,914,290	112,026,815
Acquisitions	66,205,530	101,779,782
Sales	(46,619,484)	(61,694,391)
Carrying amount at the end of the period	1,139,687,136	1,027,186,801

14. FINANCIAL ASSETS AT AMORTISED COST

The Company applies the provisions of IFRS 9 regarding the expected credit losses, thus it classifies its receivables in Stage 1, Stage 2 and Stage 3. No exposures were identified that, although performing, recorded a significant deterioration of credit risk (that would require the presentation under Stage 2. For Stage 3 sundry debtors, for which the collection is uncertain, the Company has calculated the impairment allowances. By applying the estimations according to IFRS 9 in respect of Stage 1, the Company concluded that the expected loss allowance was not significant.

Sundry debtors mainly include amounts arising from final court sentences.

24. OTHER RESERVES

Other reserves have been created as a result of the profit allocation.	30 June 2025	31 December 2024
Legal reserve (i)	43,248,876	43,248,876
Reserves from previous years' profits	989,133,764	973,532,216
Other reserves (ii)	3,912,094	3,912,094
Total	1,036,294,734	1,020,693,185

- (i) The statutory legal reserves represent the accumulated transfers from the retained earnings made according to the national legislation. These reserves cannot be distributed to the shareholders. The national legislation provides that at least 5% of the Company's profit must be transferred to legal reserves until this reserve reaches 20% of the Company's share capital.
- (ii) Tax facilities generated by favourable exchange rate differences.

25. OWN SHARES

Under the EGMS Resolution no. 1/22.04.2024, during June-November 2024, the Company bought-back 24,003,797 own shares, representing 1.11% of the share capital for the purpose of reducing the share capital by cancelling the bought-back shares. The Extraordinary General Meetings of Shareholders of April 28, 2025 approved the reduction of the share capital due to the cancellation of the bought-back shares, the legal steps related to the reduction of the share capital are ongoing at the date of this report.

The Company completed on 13.03.2025 the second stage of the share buyback program approved by the Extraordinary General Meeting of Shareholders' Resolution no. 1/22.04.2024, under which it repurchased 10 million own shares, representing 0.4624% of the share capital, at an average price of RON 0.3841/share. The completion of stage 2 of the buyback program marks the completion of the entire buyback program.

On May 16, 2025, the Company started the first stage of the buy-back programme approved through the EGMS Resolution no. 1/10.03.2025, stage which has as its object the buy-back of 40 million own shares in order to reduce the share capital, by cancelling the bought back shares. Until 30.06.2025, 1,731,871 shares were repurchased, the program being 4.33% completed.

	30 June 2025	31 December 2024
Own shares bought back	(17,134,345)	(13,872,296)
Total	(17,134,345)	(13,872,296)

26. BENEFITS GRANTED TO THE SUPERVISORY BOARD MEMBERS, EXECUTIVE BOARD MEMBERS AND COMPANY PERSONNEL

The benefits granted to the Supervisory Board members, Executive Board members and the Company's personnel in the form of equity instruments represent the value of benefits related to their participation in Stock Option Plan programs, component of the variable remuneration granted in the form of shares.

In the first half of 2025, the Supervisory Board members, the Executive Board members and the other categories of identified personnel were granted variable remuneration consisting of cash, based on the Remuneration Policy valid for 2021, in accordance with the provisions of the Incentive and Reward Plan for the identified personnel through free share grants ("Stock Option Plan") for 2021 (third deferred instalment).

The variable remuneration provided for in the Remuneration policy valid on the SOP 2021 approval date (policy approved by O.G.M.S. Resolution no. 1/28 April 2021), comprised of 50% shares issued by the company and 50% cash, having an initial component of 50% and a 50% component subject to the deferral period.

The Extraordinary General Meeting of Shareholders of 10.03.2025 approved the Company's buyback of its own shares, on the market where the shares are listed and/or through public tender offers, including public tender offers carried out through exchange offers (the "Buyback Programme"). The Buyback Programme envisage the repurchase of a maximum of 185 million own shares, of which 175 million shares for the reduction of the share capital by cancelling the repurchased shares and 10 million shares for distribution under a Stock Option Plan program. The programme will run at a minimum price of RON 0.3000/share and a maximum price of RON 0.5000/share, and its aggregate amount will be up to RON 92.50 million.

Government securities measured at fair value through profit or loss			117,881,986		117,881,986
Other financial assets at amortised cost	7,554,912	-	-	-	7,554,912
Total financial assets	26,062,181	1,027,186,801	849,927,642	-	1,903,176,624
Financial liabilities at amortised cost	-	-	-	23,044,914	23,044,914
Total financial liabilities	-	-	-	23,044,914	23,044,914

29. FINANCIAL ASSETS AND LIABILITIES FAIR VALUE

29.1 Hierarchy analysis of the fair value of financial instruments measured at fair value

According to IFRS 13, according to the input used in the valuation model, the fair value levels are defined as follows:

- Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 inputs: unobservable inputs for the asset or liability.

To estimate the fair value that uses Level 1 inputs, the Company uses the closing /reference prices on the domestic and/or foreign trading systems.

According to International Financial Reporting Standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The materiality level of the inputs used in the fair value estimation is established by using professional judgment, considering specific factors, due to the complexity of the valuation of such investments and to the fact that changes in fair value are reflected in the financial statements.

The fair value of the financial instruments held by Transilvania Investments is estimated according to the Company's Fund Rules, policy, procedure and methodology regarding the assets valuation for financial reporting purposes. Transilvania Investments informed the investors on the annual review of the valuation policy and procedure, approved and implemented at the company level, through current reports sent to the Bucharest Stock Exchange and the Financial Supervisory Authority.

Given the organisational structure and the internal regulations of Transilvania Investments, for some holdings that are classified as Level 3 on the fair value hierarchy, the valuation activity is carried out by a contractual partner, in compliance with the provisions of specific legislation and Valuation Standards applicable at the reference date of the report (valuation date).

The Company has included the following financial instruments in the category of financial instruments whose estimated fair value uses Level 3 inputs in the fair value hierarchy:

- (i) Financial assets at fair value through other comprehensive income, consisting of shares and equity interests (participations in the share capital of issuers of less than 20% classified in this category), equity holdings.
- (ii) Financial assets at fair value through profit and loss, consisting of shares (participations in the share capital of issuers of more than 20% and less than 20% classified in this category), bonds, government securities and fund units.

29. FINANCIAL ASSETS AND LIABILITIES FAIR VALUE (CONTINUED)

29.1. Hierarchy analysis of the fair value of financial instruments measured at fair value (continued)

The methodology for estimating fair values considers the structure of the financial instrument portfolio managed by Transilvania Investments, as well as the specifics of the investments held. The data and information used in the process of estimating the fair value will be based on reliable and relevant sources or database, information that is relevant at the reference date. The data and information will be obtained from independent sources, if possible and appropriate. The models used in the process of estimating the fair value depend on the quality, quantity and reliability of available data and information as well as on the professional judgment.

Under the general concept and according to the rules defined at the level of the fund by its authorisation as a R.I.A.I.F., it was envisaged that stakes in issuers listed on an alternative/multilateral system in Romania would be assimilated to securities with a liquidity considered as irrelevant for applying the mark-to-market method, the option being that the shares of such companies to be evaluated on the basis of a valuation report in accordance with the valuation standards in force. For the companies listed on the main segment of Bucharest Stock Exchange, usually, the trading activity of the shares concerned is considered relevant to apply the mark-to-market method. In specific situations, which do not fall within the general coordinates mentioned above, a prudent judgement is considered with regard to quantitative and/or qualitative aspects of the market and the trading activity of the issuer's securities.

For the *shares and equity interests* whose estimated fair value uses Level 3 inputs, the following approaches have been considered:

- Market approach - comparison with similar companies' equity transactions;
- Income approach - discounted cash flow method, discounted dividends method and dividend capitalisation method;
- Asset approach - adjusted net asset method.

The process of estimating fair values is related to a volatile economic environment, influenced by phenomena whose effects, duration or evolution can be difficult to define and anticipate (e.g. inflation, conflicts, energy prices, pandemics etc.). The high volatility of some specific influencing factors can lead to changes in existing conditions in a relatively short period of time, and the impact on economic conditions, financial markets or at company level could lead to variations in the initially estimated values. An important element that determines the consistency and relevance of some data and information used in the valuation process is the availability and the level of complexity of the financial reports of the companies in the managed portfolio.

For *corporate bonds*, the estimated fair value considers the "default" stage of the respective bond issue, determined by the exceeding of the terms provided in the issue prospectuses for the payment of the principal and coupons. According to the Fund Rules and the valuation methodology for the financial assets in this category, they are carried at zero value.

The *government securities*, whose estimated fair value uses Level 2 input data, are measured by using composite price benchmarks published by Bloomberg, namely Mid prices that have as main support direct observations on the respective instrument.

For *unit funds* whose estimated fair value uses Level 3 inputs, the unitary net asset value, as published or communicated by the fund manager for the reference date, is considered.

For the *equity holdings* held by the Company in a closed-end investment entity, level 3 input data is considered, by reference to the capital contributions made by Transilvania Investments and the net asset value (NAV) assigned to Transilvania Investments, in accordance with the information in the periodic financial reports communicated to investors by the respective entity.

At the level of the entire portfolio of financial instruments held by Transilvania Investments, at 30 June 2025 the value of the financial assets measured at fair value through profit and loss amounts to RON 851.1 million, of which 34.6% represents the value of holdings classified on Level 1 in the fair value hierarchy.

(All amounts are expressed in RON, unless otherwise stated)

29. FINANCIAL ASSETS AND LIABILITIES FAIR VALUES (CONTINUED)

29.2. Financial assets and liabilities not measured at fair value (continued)

Assets and liabilities for which fair value is presented as at 30 June 2024:

	Level 1	Level 2	Level 3	Total
Financial assets				
Cash and cash equivalents (i)	5,529	82,065,648	-	82,071,177
Financial assets at amortised cost	-	-	4,224,876	4,224,876
Total financial assets	5,529	82,065,648	4,224,876	86,296,053
Financial liabilities				
Financial liabilities at amortised cost	-	-	48,847,218	48,847,218
Total financial liabilities	-	-	48,847,218	48,847,218

(i) Cash and cash equivalents

Cash and cash equivalents include petty cash and current bank account or bank deposits with maturity less than 3 months. The fair value of the short-term deposits is equal to their accounting value.

30. FINANCIAL RISK MANAGEMENT

The risk management activity is carried out within the Company's organizational structure, and it focuses on both general and specific risks, as set forth in Law no. 74/2015 and Law no. 243/2019 regulating alternative investment funds and amending and supplementing acts of legislation.

The identification and measurement of the financial risks, as well as the measurement of the risk management ratios are carried out in compliance with the EU Directive 2011/61 *regarding the alternative investment fund managers* (DAFIA), EU Regulation no. 231/2013, Directive no. 2013/36 / EU *on capital adequacy* and EU Regulation no. 575/2013 *regarding the prudential requirements for credit institutions and investment companies*. The approach used by the Company in respect to the management of the financial and operational risks complies with the provisions of the EU Directive 2011/61 *regarding the alternative investment fund managers*, the references in DAFIA to Directive 2013/36/EU and the requirements regarding the risk management provided for by the EU Regulation no. 231/2013.

The most important types of financial risks to which the Company is exposed are credit risk, liquidity risk and market risk. Market risk includes currency risk, interest rate risk and equity price risk. This note provides information regarding the Company's exposure to every risk mentioned above, the objectives and policies of the Company and evaluation and risk management processes.

30.1 Credit risk

Credit risk is the risk of financial loss of the Company if a customer or counterparty of a financial instrument fails to meet its contractual obligations. Issuer risk represents the risk of losing the value of a financial instrument in a portfolio, due to the deterioration of its economic-financial situation, which can be determined by the business conditions or the general situation of the economy.

The Company is exposed to counterparty credit risk on cash and cash equivalents and other financial assets.

30. FINANCIAL RISK MANAGEMENT (CONTINUED)

30.1 Credit risk (continued)

The credit risk related to investment activities is managed in compliance with the principles of prudential diversification of the portfolio. This risk is controlled both through the manner of selecting the partners - by monitoring their activities and through monitoring the exposure limits.

Given that through its activity the Company has long-term exposure in relation to its holdings in financial and non-financial entities, the Company's management is permanently reviewing the credit risk the Company is exposed to by maintaining it at a prudent and manageable level. Thus, the Company's management uses, from case to case, depending on the debtor/entity characteristics, appropriate instruments to reduce the credit risk and, at the same time, permanently monitors the debtor's financial evolution. As of today, the Company has not used credit derivative financial instruments to reduce the credit risk related to exposure to any debtor.

The Company's maximum exposure to credit risk for current accounts and deposits with banks is the following:

	Rating 30 June 2025 Short/ long-term	30 June 2025	Rating 31 December 2024 Short/ long-term	31 December 2024
Cash and cash equivalents				
BRD	F2/BBB+	62,584,211	F2/BBB+	8,547,567
ING Bank	F1/A+	1,033,057	F1/A+	385,119
Banca Transilvania	F3/BBB-	568,052	F3/BBB-	1,113,748
Banca Comercială Română	F2/BBB+	41,570,131	F2/BBB+	8,438,074
Total		105,755,451		18,504,508

The above assets are not impaired nor overdue, being included in Stage 1.

Credit risk is also spread by placing cash with several banks. At the same time, the current accounts and deposits are held at Romanian banks, these institutions having a satisfactory rating. Under these conditions, the current accounts and bank deposits of the Company have a low credit risk because they are held at renowned banking institutions.

30. FINANCIAL RISK MANAGEMENT (CONTINUED)

30.2 Market risk and position risk

Market risk is the present or future risk of recording losses related to balance sheet and off-balance sheet items due to adverse movements in market caused by changes in share prices and fluctuation of interest rates, exchange rates or price of goods. The Company's management sets the limits of the risk value that may be accepted, which are monitored on a regular basis. However, the use of this approach does not prevent losses outside of these limits in the event of more significant market movements.

Position risk is mainly associated with the portfolio of financial instruments listed on a regulated market, measured at fair value and which uses Level 1 input, held by the Company with intention to benefit from favourable evolution of prices of the financial assets or from potential dividends/coupons granted by entities. The Company is exposed to both the general and specific position risk, due to short term investments made in government securities, shares and fund units.

The Company's Management permanently seeks to minimize the potential adverse effects associated to this financial risk, through an active policy of prudent diversifying the investment portfolio and by using one or more technics of diminishing the risk, depending on the dynamics of the trading venues or on the evolution of the market prices of the financial instruments held by the Company.

30.3 Concentration risk

Concentration risk concerns all financial assets held by the Company, regardless the holding period and, through diminishing this risk, the Company seeks to avoid large exposure against the same debtor/issuer or sector.

The Company's policy on exposure diversifying is applied to the portfolio structure, the business model, as well as to the structure of financial risks exposures.

Thus, this diversifying policy implies diversifying the portfolio by avoiding excessive exposures against the same debtor/issuer, diversifying the structure of financial risks by avoid excessive exposure against a specific type of financial risk.

To meet these objectives, the Company carries out an extensive process for portfolio restructuring and business policies re-modelling. At 30 June 2025, the Company's portfolio recorded significant exposures on *Banks* sector, as the main income-generating sector and on *Travel and leisure* sector, due to the historical holdings of Transilvania Investments.

These sectors are included in portfolio restructuring programmes, consisting of in both sales on the market and reduction of their weight in total portfolio by increasing the weight of other sectors in the overall portfolio.

30.4 Currency risk

The Company is slightly exposed to exchange rate fluctuations, primarily in the case of the shares acquired from foreign markets, foreign currency current accounts, receivables and liabilities in other currencies, as well as receivables and liabilities in RON but which, according to contracts, are consolidated in relation to other currencies, usually EUR and/or USD.

The Company did not use and does not use currently derivative financial instruments to protect itself from exchange rate fluctuations against other currencies.

By computing and monitoring the foreign currency net position and the foreign currency rate volatility, the Company aims to maintain a balance between foreign currency assets and liabilities against total assets and liabilities of the Company.

30. FINANCIAL RISK MANAGEMENT (CONTINUED)

30.5 Interest rate risk

Interest rate risk is the current or future risk that profits and equity are negatively affected by adverse changes in interest rates. The Company's operational cash flows are affected by interest rates fluctuations, especially in case of cash placed in bank deposits and corporate bonds.

Based on interest rate management strategy, the Company aims to optimize the gap between the assets and liabilities that are sensitive to interest rate fluctuation, overall and on time horizon, so as the impact of interest rate fluctuation on the net interest income is minimum, thus ensuring that the risk impact is maintained within limits. The Company did not use nor is using at this date derivative financial instruments to protect against interest rate fluctuation.

The Company adopted risk management policies, as well as a risk management procedure, with a focus on the prudential portfolio diversification, in the context of both the capital market regulator's requirements and the current dynamics of financial markets.

The following table shows the annual interest rates obtained or offered by the Company for its interest-bearing assets and liabilities in the first half of 2025:

	RON		EUR	
	Interval		Interval	
	Min	Max	Min	Max
Financial assets				
Cash and cash equivalents	4.40	6.73	-	-

The following table shows the annual interest rates obtained or offered by the Company for its interest-bearing assets and liabilities in the first half of 2024:

30. FINANCIAL RISK MANAGEMENT (CONTINUED)

30.6 Liquidity risk

Liquidity risk is the current or future risk that profits and equity are negatively affected by the Company's inability to meet its obligations at maturity.

Given that Transilvania Investments is a closed-end investment fund, the related liquidity risk is lower than in the case of an open-end investment fund, since the shareholders do not have the option to buy back their holdings individually; liquidity requirements are relatively low, thus reducing the impact of the potentially low liquidity of the portfolio and / or the occurrence of a very high liquidity requirement.

The focus was placed on the Company's ability to invest in liquid assets in a reasonable time frame, so as the Company, in accordance with its portfolio management policy, be able to face easier challenges on the financial markets such as high volatility, discrepancies between markets, reduced level of transactions on Bucharest Stock Exchange, inability of liquidity suppliers / market makers to perform their roles etc.

The Company's strategy on liquidity risk management is focused on portfolio restructuring, so that the most important weight in portfolio, both in terms of quantity and value, be represented by assets with high liquidity.

The portfolio of shares held by Transilvania Investments includes:

- shares held in companies listed on a regulated market, which are constantly analysed in terms of liquidity risk. At 30 June 2025, the weight of the high liquidity assets in total assets, namely those shareholdings that meet the criteria established by the Company to be considered liquid, was 59.57% (30 June 2024: 60.23%)
- other holdings (unlisted and listed on an alternative trading system) that do not meet the criteria specific to assets considered liquid
- the Company may partially include among the liquid assets also the majority shareholdings in companies listed on a regulated market if they meet the criteria established by the Company to be considered liquid.

Both in the context generated by the evolution of the conflict in Ukraine, and in normal market conditions, the Company monitors the liquidity conditions specific to the managed portfolio, in the case of companies in which its shareholding is less than 20%, in accordance with the risk management regulations.

During the reporting period, the portfolio liquidity risk was proactively managed through a mix of measures:

- the Company monthly analysed the liquidity of the assets with a high level of liquidity to ensure the liquidities necessary to the payment of liabilities due in the next 30 days;
- an asset sale programme was implemented which is focused on calibrating / adapting the size of each relevant holding to the parameters of the optimal holding packages from the perspective of historical liquidity values, so that the efforts to consolidate the aggregate treasury also contribute to improving portfolio liquidity;
- at the same time, the Company carried out in 2025 liquidity crisis simulations, meant to detect possible vulnerabilities regarding the liquidity risk and which can proactively highlight a possible need to implement action plans meant to avoid or manage periods of high liquidity risk. Through these actions, a wide range of scenarios for analysing liquidity crisis situations was analysed. The scenarios used included both market risk and liquidity-specific conditions recorded by the main holdings in crisis periods, including those triggered by the development of the conflict in Ukraine.

30. FINANCIAL RISK MANAGEMENT (continued)

30.6. Liquidity risk (continued)

- In synthesis, the conclusions of the crisis simulations have highlighted the fact that there are no scenarios in which Transilvania Investments Alliance might find itself in the situation of not having enough resources to pay its due liabilities.
- As regards liquidity risk, liquidity stress tests:
 - strengthens the ability of the Transilvania Investments Alliance to manage the liquidity of the Company in the interest of investors, respectively contributes to the identification and management of periods with high liquidity risk;
 - helps to identify possible vulnerabilities of an investment strategy in terms of liquidity and investment decision making;
 - their results are considered by the specialist departments and management of the company in defining the annual investment programs and planning the strategy for unforeseen situations - on possible periods with an increased liquidity risk.

The table below presents the financial liabilities as at 30 June 2025 according to their remaining contractual maturities. The amounts included in the table are undiscounted future cash flows. Undiscounted future cash flows are different to the amounts from the statement of financial position because the amount from the later represents discounted cash flows.

The table below presents an analysis of non-derivative financial assets at undiscounted value and according to their contractual maturities. These financial assets are included in the maturity analysis according to the future expected sale day.

When the amount to be paid is not fix, the presented amount is determined based on the existing conditions at the reporting period. The payments in foreign currency are translated using the exchange rate at the end of the reporting period.

30. FINANCIAL RISK MANAGEMENT (CONTINUED)

30.7 Business environment

In the first half of 2025, Romania's economy continued to operate in an environment marked by both domestic and external uncertainties, maintaining a fragile balance between fiscal pressures, political volatility, and moderate external developments. Globally, economic trends were divergent, yet a clearer outlook for monetary easing in developed economies began to emerge, contributing to a reduction in risk aversion across emerging financial markets. At the same time, the persistence of heightened geopolitical risks—particularly in the Black Sea region—continued to indirectly influence investor sentiment and regional energy stability.

In Romania, the semi-annual data indicates modest economic growth, driven mainly by public investments and household consumption in specific segments, despite a noticeable slowdown in external demand. Structural imbalances persist: inflation remained above the EU average, reaching 5.8% in June 2025, while the budget deficit exceeded 3.4% of GDP in the first half of the year. Public debt rose above 54% of GDP, continuing its upward trend and amplifying risks related to fiscal sustainability and the government's financing costs.

On the political front, the first half of the year was marked by instability and uncertainty regarding the direction of structural reforms. Following the formation of the governing coalition, the legislative process advanced slowly, amid social tensions and public debates surrounding the fiscal adjustments required to meet European commitments.

The National Bank of Romania maintained its key interest rate at 6.50% throughout the semester, continuing a cautious monetary policy in response to inflationary pressures and unresolved fiscal imbalances. Despite a downward trend in inflation, its level remains one of the highest in the EU, limiting the central bank's flexibility in a global context increasingly oriented toward monetary easing.

The government bond market remained volatile, reflecting uncertainties about fiscal consolidation and the limited risk appetite of institutional investors. Yields stayed elevated in real terms, contributing to the growing budgetary burden associated with public debt servicing.

In this context, H1 2025 was characterized by heightened exposure of the economic environment to structural and credibility risks, with implications for investment decisions and growth prospects. Companies and investors continued to operate in a climate of caution, focusing on adaptability, cost control, and liquidity preservation, while awaiting greater clarity regarding medium-term economic and fiscal policy directions. However, Transilvania Investments' management does not estimate difficulties in fulfilling its commitments to shareholders and obligations to third parties as the current and estimated cash flows for the future are sufficient to cover the debts to third parties.

30.8 Operational risk

Operational risk is defined as the risk of loss caused either by using inadequate or inaccurate processes, systems and human resources that have not performed their function properly, or by external events and actions, and includes the legal risk. Transilvania Investments implemented a risk management system which relies on three lines of defence:

- the first line is provided by the Company's departments, which have the first responsibility and importance for the effective management and control of the risks in the daily activities performed;
- the second line is represented by the Risk Management Department, which identifies, analyses and monitors the risks at the level of the entire company. The second line of defence also include the compliance function which ensures the compliance of the Company's activity with the legal regulations in force and verifies the accomplishment of the controls from the first line and the third line of defence;

30. FINANCIAL RISK MANAGEMENT (CONTINUED)

30.8 Operational risk (continued)

The operational risks at the level of the organizational structures are assessed quarterly, in order to monitor, manage and maintain a high level of awareness. During the first three months of 2025, a series of operational risks materialized at the level of the Company's functional departments. These were managed so as not to impede the continuity of the activity in optimal conditions.

30.9 Sustainability risks

Regulation (EU) 2019/2088 sets out transparency rules for financial market participants and financial advisors on sustainability related disclosures in the financial services sector, consideration of adverse sustainability impacts in their activities and the provision of sustainability disclosures in relation to financial products.

According to the Strategy and the Investment Policy Statement approved by the shareholders, the Company aims to gradually introduce ESG factors in the pre-transaction analysis of investment operations.

Currently, the Company does not integrate sustainability risks into its investment decisions but considers it important to periodically reassess the factual situation. Sustainability risks are also currently considered not to be relevant and should they materialize, the impact would be immaterial to the Company. Whenever the Company deems necessary and appropriate, the ESG Policy will be subject to reviews, the outcome of which will be communicated to investors in accordance with applicable legal regulations.

At the level of the Company, during Q4 2024, steps were implemented to prepare the Annual Sustainability Report (with reference to the European Sustainability Reporting Standards - ESRS), which included, among other issues, information on risks that have a significant influence or can reasonably be expected to have a significant influence on the Company's development, its financial position or its financial performance in the short, medium or long term.

30.10 Capital adequacy

As regards the financial risks to which it is exposed, Transilvania Investments applied in the first half of 2025 also a capital-based approach, according to EU Regulation no. 575/2013 *on prudential requirements for credit institutions and investment firms*. The impact of the financial risks considers the size of the financial resources that are affected by the respective financial risks (calculated by dividing the level of the capital adequacy ratio by the minimum level required by law, i.e. 8%). Transilvania Investments seeks that the solvency ratio, determined as a ratio between capital requirements afferent to financial risks and own funds (financial resources) is at least two times higher than the required minimum level (resulting in a minimum capital adequacy rate of 16%). At 30 June 2025, Transilvania Investments recorded a high level of capital adequacy ratio, namely 51.07%.

Transilvania Investments' own funds as at 30 June 2025, calculated in accordance with the methodology laid down in EU Regulation no. 575/2013, are worth RON 989,027,587.89. The Company's own funds are Level 1 own funds, namely share capital, reserves, retained earnings, other comprehensive income, less the deductions provided for by the same regulation.

31. CAPITAL MANAGEMENT

The Company's objectives regarding the capital management are to preserve the Company's ability to continue as a going concern in order to generate added value for shareholders and benefits for other users of information regarding the Company's activity and to maintain an optimal capital structure so as to reduce the cost of capital to the optimal level. To maintain or adjust the capital structure, the Company may opt to adjust the sum of dividends to be paid to shareholders, to change the added value created for shareholders, to issue new shares or to sell assets in order to reduce debt. The equity managed by the Company as at 30 June 2025 amounted to RON 1,982,263,233 (30 June 2024: RON 1,920,808,859).

Consistent with other companies in the industry, Transilvania Investments monitors the capital based on the net asset value per unit. This value is calculated as a ratio between the net asset value and the number of the outstanding issued shares.

32. COMMITMENTS AND CONTINGENCIES

32.1. Litigations

In the first half of 2025, the Company continued to be involved in legal actions specific to the activity performed. The Company's management believes that these litigations will not have a material adverse effect on the economic and financial position of the Company presented in these financial statements.

During the first six months of 2025, the existing litigations concerned the defence of the corporate rights of the Company and other patrimony rights of the later.

32.2 Contingent liabilities

At 30 June 2025 and 30 June 2024, the Company had no contingent liabilities.

32.3 Transfer pricing

The Romanian tax legislation has been providing rules on transfer pricing between related parties ever since 2000. The current legislative framework defines the "market value" principle in relation to transactions between related parties, as well as the methods of determining transfer prices. Thus, it is likely that the tax authorities conduct verifications of the transfer pricing to make sure that the tax result and/or customs value of imported goods is not distorted by the effect of the prices practiced in the relations with related parties. The Company cannot measure the result of such verifications.

33. SUBSEQUENT EVENTS

There were no events subsequent to the date of the financial statements that required adjustments or presentation in the financial statements.

STATEMENT

The undersigned, MOLDOVAN MARIUS ADRIAN - Executive President and RAȚ RĂZVAN LEGIAN – Executive Vice-President, in our capacity as legal representatives of TRANSILVANIA INVESTMENTS ALLIANCE S.A., with its headquarters in Brasov, 2, Nicolae Iorga Street, Unique Registration Code 3047687, under art. 67 para. (2) letter c) of Law no. 24/2017 *on issuers of financial instruments and market operations*,

We hereby give this statement on the measure in which the interim condensed financial statements prepared for June 30, 2025 reflect in an accurate manner, from all material respects, the Company's financial position as at June 30, 2025 and the result of its operations completed at this date in accordance with the provisions of the Romanian accounting rules, namely the Accounting Law no. 82/1991 - republished and the F.S.A. Rule no. 39/2015 on the approval of the Accounting regulations complying with the I.F.R.S. applicable to entities authorized, regulated and supervised by the Financial Supervisory Authority from the Financial Instruments and Investments Sector.

We hereby declare that we take full responsibility for the preparation of the Interim condensed financial statements as at June 30, 2025 and we confirm that:

a) The accounting policies used to prepare the Interim condensed financial statements as at June 30, 2025 are compliant with the F.S.A. Rule no. 39/2015;

b) The Interim condensed financial statements as at June 30, 2025, prepared by the Company under the legal regulations in force mentioned above, provide a fair, accurate and real image of the Company's assets, liabilities, financial position, profit or loss and other comprehensive income, changes in the shareholders' equity, cash flows, informative data, statement of non-current assets and of the other information included in the explanatory notes;

c) The Executive Board's Report (accompanying the Interim condensed financial statements as at June 30, 2025) comprises a correct analysis of the Company's development and performances and describes the main risks and uncertainties specific to the activity carried out by the Company as a closed-end diversified Retail Investor Alternative Investment Fund (RIAIF), set-up as an investment company, self-managed, established by Articles of Incorporation;

d) The Company carries out its activity under the going concern principle.

Therefore, on behalf of the Company's Executive Board, we give this statement that will accompany the Interim condensed financial statements as at June 30, 2025 prepared by the Company.

The Interim condensed financial statements as at June 30, 2025 have not been audited.
