Transilvania Investments Alliance Strategy 2024 - 2028

The Strategy 2024-2028 covers the period 30.04.2024 – 30.04.2028.

1 Investment policy on medium/long-term horizon

The Company generally pursues an investment policy on a **medium/long-term horizon**. This allows the Company to capitalize on investment opportunities characterized by a low liquidity level, such as **private equity**.

2 Balanced strategy

The Company seeks its positioning on the local investment funds market as an Alternative Investment Fund with a balanced strategy (with a **growth** and **yield** component).

3 Restructuring the historical portfolio

Restructuring the historical portfolio of holdings that have exhausted their growth potential or have low growth potential or the risk-adjusted return of their activity is lower than the estimated return for an efficient operating.

4 Increase in the portfolio return

Increase in the portfolio return by the entire range of instruments allowed, including through increasing the weight of **dividends** generated by the sub-portfolio of **majority holdings**.

5 Balanced shareholder remuneration policy

Balanced shareholder remuneration policy, aimed at both direct remuneration (**dividend** gain) and indirect remuneration (capital gain from the **reduction of the trading discount** and increase in the net asset value).

6 ESG-related policies and procedures

Gradual revision of the ESG-related policies and procedures, so that, by the end of the Strategy reference period , the Company **integrates the sustainability-related risks** into its investment decisions and **considers the adverse impacts** of investment decisions on sustainability factors.

7 NAVPS increase and discount reduction

Annual increase in the Net Asset Value per Share (NAVPS) by at least 6% (increase calculated before any distribution of dividends and/or other shareholder remuneration forms) and **annual reduction of the trading discount by at least 7%.**

8 Medium risk profile Investment entity

Maintaining the **medium risk profile of the portfolio,** as well as **the status of investment entity** as a fundamental element of implementing the business model and as a methodology for preparing and presenting the periodical financial reports.

Strategy 2024-2028

BUSINESS

The General Meeting of Shareholders of April 22, 2024 approved **4 strategic lines** for business development:

- **TOURISM** → we aim to change/consolidate the management and business models for the sub-portfolio of companies operating in the tourism sector. By way of example, in order to increase the performance of companies from this sector agreements for specialized operating services and/or operation under international brands can also be considered.
- **REAL ESTATE** → the real estate portfolios will be efficiently and centralized operated, including the assets of companies operating in the industrial sector, where the risk-adjusted profitability of the industrial activity is lower than the estimated efficiency for a real estate operation.
- **ACTIVE TRADING** → includes the strategy afferent to issuers actively traded on financial markets, with high liquidity, regardless of the trading environment (local or international), with a view of maintaining an adequate liquidity level profile of the managed portfolio and will target both short investment horizons and longer investment horizons.
- **PRIVATE EQUITY** → we aim to develop and effectively capitalize on the potential offered by the niche of private equity investments, both in new sectors and by a private equity approach for the assets in the existing portfolio. The private equity investments and participation in entrepreneurial projects create the premises for the increase in the profitability of the assets managed and have the purpose of mitigating the negative performances recorded on the capital market.

Exit Strategy

The Exit Strategy, approved by shareholders on October 7, 2025:

- is an integral part of the 2024–2028 Strategy and falls within the framework of the 2024–2028 Investment Policy Statement, both approved by the shareholders during the General Meeting of April 22, 2024. In line with these documents, the Company aims to restructure its historical portfolio of holdings that have exhausted their growth potential, show limited prospects, or generate a risk-adjusted return below the efficiency expected from active portfolio management. As a minority or significant shareholder, the Company seeks to exit those holdings that lack investment potential or the real capacity to implement sustainable and efficient business models.
- **is aligned with the Shareholders' Remuneration Policy**, which is built on a balance between direct remuneration, through dividend distributions, and indirect remuneration, through the reduction of the trading discount and the increase in the value of the invested capital. The shareholders indirectly benefit from the improvement in portfolio quality, which leads to an **increase in Net Asset Value** (NAV) and a **reduction in the trading discount,** thereby strengthening the premises for a superior valuation of their investment in Transilvania Investments.
- The primary **objective** of implementing this Strategy is to **maximize the potential of each type of asset**. In the process of divesting holdings, the **minimum value** will take into account the **fair value** at which these are recorded in the Fund's assets, while for divestments involving the sale of assets related to such holdings, the price will be determined based on **independent valuation reports**.

Consequently, on March 23, 2026, the Company completed the sale of 145,615,772 BALN shares, by special selling method, according to the B.S.E. regulations, at the price of RON 0.075/share, the stake being acquired by Eagle Properties S.A.

During the analysed period, the operational restructuring process continued with the completion of the sale of the fine metalwork production business line and the cessation of the production activity as of February 1, 2026. The transaction was performed at a price higher than the minimum value approved and did not include the assets in which the activity was carried out. At the same time, the company continued the efforts to sale the hotel assets (Hotel Central Ploiesti and Complex Hotelier Orizont Predeal) through public tenders, which ended unsuccessfully, without asset sale during the reporting period.

- **Turism Lotus Felix S.A.** was included in the Exit Strategy, being an unlisted company in which Transilvania Investments held 38.27% of the share capital, respectively 484,853,142 shares.
